Report of 'Teachers Day celebration'

Artificial Intelligence & Data Science department has organized online Teacher's day program on 6th august 2021 on MS Team platform. We celebrate Teacher's Day every year on September 5, to honor, celebrate and recognize mentors. It is celebrated every year on the **birth anniversary of Dr. Sarvepalli Radhakrishnan**, who was first the Vice-President of India and the second President of India

As per tradition, we started celebration with Saraswati Poojan. After saraswati poojan, head of the department Dr. Swapnaja Ubale addressed to students. After that students expressed their view about teachers and teaching learning method. Then some students participated in debate competition on online teaching verses offline teaching and both the teams came up with very good points in debate. Some students played musical videos, played guitar and piano. Then there was treasure hunt in which students made two teams and they asked question to them, and team that will give maximum number of answer will be the winner. Then prof. Satish Jadhav motivated students on teachers day and concluded the program.

Glimpse of celebration

At the end head of the department guided students for their carrier and opportunities in AI &DS and providing them right direction to achieve their ambition.

Dr. Swapnaja A. Ubale
Head(AI&DS)
