## About ZES and ZCOER

Zeal Education Society is established in year 1996 by Hon. Shri Sambhaji M. Katkar, an eminent industrialist committed to noble cause of education. Society runs eight institutes from Pre-primary to PhD courses. It caters to educational needs of more than 7000 students, and it's continuously expanding to cope up with growing demands in the field of technical education. ZCOER is established in 2007 which symbolized the beginning of new era in technical education. The college offers UG engineering degree courses in Civil Engineering, Computer Engineering, and Electrical Engineering, Information Technology, Electronics & Telecommunication and Mechanical Engineering. The college also offers PG courses in Computer Engineering, Electrical Engineering (Power System), Electronics & Telecommunication (VLSI and Embedded System), Mechanical Engineering (ME Design / CADEM) and Master of Business Administration. The institute is also granted as PhD research centre in Electronics & Telecommunication and Mechanical Engineering under Savitribai Phule Pune University, Pune (SPPU) since 2013.

The college has the experienced & highly qualified staff, specious classrooms and well equipped laboratories. With state of the art research, infrastructural, sports, cultural facilities, the campus provides excellent academic ambience for the students, Hence it is one of the sought after engineering colleges in Pune.

## FOUNDER DIRECTOR's MESSAGE

Zeal education society has entered in technical education in a big way by starting an engineering college with six disciplines with the good teachers for imparting quality education to our students. Our infrastructure and human capital as a society are positive of providing the best education top cope up with the globalization challenges in any field. Quality always has been the thrust of our society and that has been proved from time to time by getting social recognition in the form of various awards. "We are confident that with your support and patronage we will succeed in our mission and vision for nation building." I am happy to share that we are taking systemic and step by step approach for creating policy mandate and support mechanism catering to every stage of innovation and start ups by students. I wish all the best to ZIPFC to make Pune as one of the best city for innovation and entrepreneurship.

**Mr. S. M. Katkar**  
Founder Director  
Zeal Education Society, Pune

## EXECUTIVE DIRECTOR's MESSAGE

In a short span, Zeal college of Engineering & Research (ZCOER) has become a benchmark of quality in the field of technical education in Maharashtra. All the years, it has been ranked 'Excellent' for all branches in academic and research. It would be the endeavor of the entire team of the Zeal Education Society to work towards realizing the mission of making it as a real World Class Education Hub, by imparting excellence in learning, knowledge & skill to students of India & other countries and in molding them as great citizens of India & World. I am confident that ZIPFC has taken a lead in innovation movement in the country and will go a long way in making Pune as one of the leading city in promoting knowledge driven entrepreneurship and IPRs. I wish ZIPFC all the best.

**Prof. Jayesh S. Katkar**  
Executive Director

## About Zeal Intellectual Property Facilitation Centre (ZIPFC)

The economic policy and the signing of agreement on trade related aspects of intellectual rights by India and other member countries of World Trade Organization (WTO) lead to the beginning of a new era. The advancements in the IPR have been vital and now India recognizes product patents in every field of technology. The movements have such that there have been almost three amendments in Patent Acts through legislation. Furthermore, India now has a new Industrial Design Legislation, new Trademark law, new amended Copyrights act whereas Performers Rights have been increased from 25 to 50 years.

At this juncture, it is quite important that the industrial fraternity, academicians, scientists as well as individual citizen remain updated with recent developments in the field of IPR. More so, it is crucial as an empowerment tool for the Micro, Small and Medium Enterprises (MSMEs) which contributes significantly to the manufacturing output, employment and exports whilst rendering consistently higher growth rate compared to the overall industrial sector. The lack of information and knowledge to protect intellectual property seemingly ails this sector to a great extent. Hence, a step in this direction has been taken by establishing an Intellectual Property Facilitation Centre (IPFC) at Zeal Education Society's, Zeal College of Engineering & Research, Narhe, Pune for assisting MSMEs.

## Objectives of ZIPFC

**The principal objectives of ZIPFC are :**

- ▶ To encourage creative and innovative research leading to the generation of new ideas and inventions.
- ▶ To facilitate the transfer of ZIPFC - developed research results and new ideas and inventions.
- ▶ To provide faculty members, staff and students of Zeal Education Society(ZES) assistance in assessing the patentability and commercial potential of their Inventions. To train faculty members, staff and students about provisional patent filing procedures in India.
- ▶ To make faculty members, staff and students familiar with basic Patent filing process & make them aware about the various requirements/data to be provided for filling of patents.
- ▶ To facilitate the filing of applications and licensing where prima facie the ZES finds it patentable.

*“Research is formalized curiosity. It is poking and prying with a purpose. ”*

*-Zora Neale Hurston*

## Services provided by ZIPFC

- ▶ ZIPFC shall guide and help the faculty members and students of ZES in patentability assessment and to apply for various IPRs such as Inventions, Designs and other creative work.
- ▶ The faculty members & students desirous of filing a patent or for any other IPR application would be given the necessary advice and guidance by the FC.
- ▶ Free patent search and filing assistance to government departments, government institutions and academic bodies.
- ▶ Supply of full text patent documents
- ▶ Awareness through seminars, lectures and workshops
- ▶ Analysis of patent information
- ▶ Technical, financial and legal assistance for filing patent, copyright design, trade mark etc. On chargeable basis for industries and private entrepreneurs

## Composition of ZIPFC/IPR cell

Principal - **Chairman**

Dean (Research and Development) - **Coordinator**

In charge (ZIPFC) - **Co-coordinator**

Dean (Academics) - **Member**

Concerned HOD - **Member**

Accounts Officer - **Member**

The inventors would be required to cooperate with the IPR cell to expedite furnishing of information for timely actions since delay would mean payment of extra fee to the patent office. Any work sought to be filed by a faculty member and/or students arising out of R&D work will be filed in joint names as inventors or authors. After filing of the application for IP protection, the inventors shall inform the IPR cell of any further development, if any in the related R & D work. The ZIPFC and inventors in collaboration with R&D Cell shall work together for commercialization of the newly created knowledge.

## Types of Intellectual Property Rights

There are six types of intellectual property you can use to protect your ideas:

To protect your idea, you need to secure one or more of the six different types of intellectual property (IP). Every invention generally starts out as an inventor's trade secret. Before inventors market their inventions, they need to secure one or more of the other forms of intellectual property protection - patents, trademarks and/or copyrights.

**The six types of intellectual property include:**

Patent | Design | Trademark  
Copyrights | GI | Trade Secret

Inventors have an instinctual desire to keep their ideas secret. To market your invention, you should protect your idea with one or more of the other types of intellectual property rights: Patents, Design, Trademarks, Copyrights GI & Trade Secret. You must select the most suitable form of patent protection to effectively protect your ideas. The information below highlights how you might determine which one of these intellectual property rights might be best for you to use to protect your invention.

## Benefits of IP Registration

Intellectual Property is beyond legality and business. Apart from it being a great valuable asset to the organization, it also brings in a lot of credibility and reputation to the organization. There are five major benefits of a registered Intellectual Property.

### ▶ **Credibility and Brand Value:**

One major advantage of having intellectual property getting registered is that, your organization enjoys better position among competitors. It is a clear indicator to your competitors and your clients that you are serious about what you do.

### ▶ **Legal Authenticity :**

Your Intellectual Property is your brain child, it is your sole property and it is illegal for anyone to use it without your approval or permission. To secure this legally, it is vital to register your Intellectual Property based on the demographic location you belong to. This will facilitate you to enjoy better immunity compared to your Competitors. All IP registrations are governed by WIPO (World Intellectual Property Organization). However, each country has its own specific laws and regulations for registering Intellectual Property and it is important to learn and understand the local laws.

### ▶ **Intangible Asset to a Tangible Asset :**

Any ingenious Intellectual Property is credited with much appreciation. It has been observed that, even if a company is being evaluated on the whole, its intellectual property will be evaluated on a separate basis. Intellectual Property does not have an obsolete depreciation. With timely renewal and periodic subscription, a registered Intellectual Property ensures that your economic status and your brand value only increases consistently.

### ▶ **Mergers, Acquisitions and Return on Investment :**

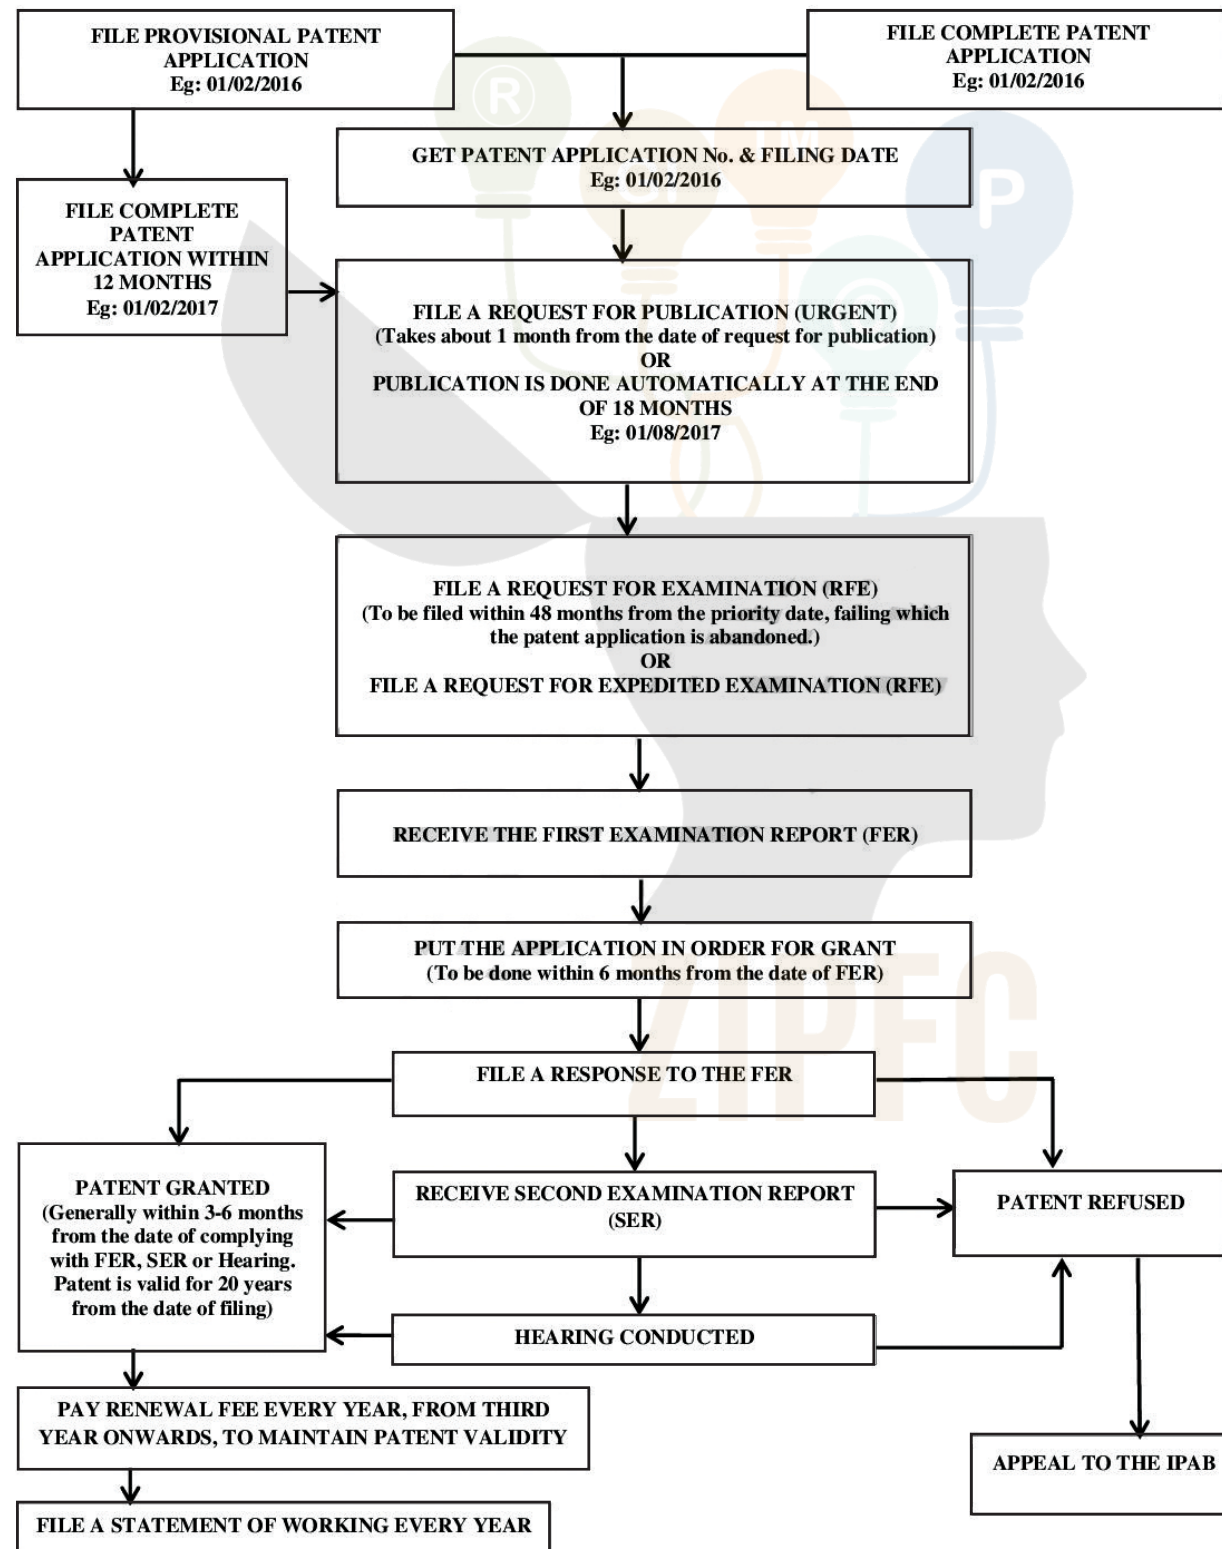

Even if your business is declared as a sick unit, you can be sure that your intellectual property will do the needful for you. The same can be applied for mergers and acquisitions also. A registered Intellectual Property gives you a legal immunity among your competitors letting you position your product or service favourably with thousands of new products flooding the retail industry, retaining customers pose a tough challenge to all businesses.

### ▶ **Pride:**

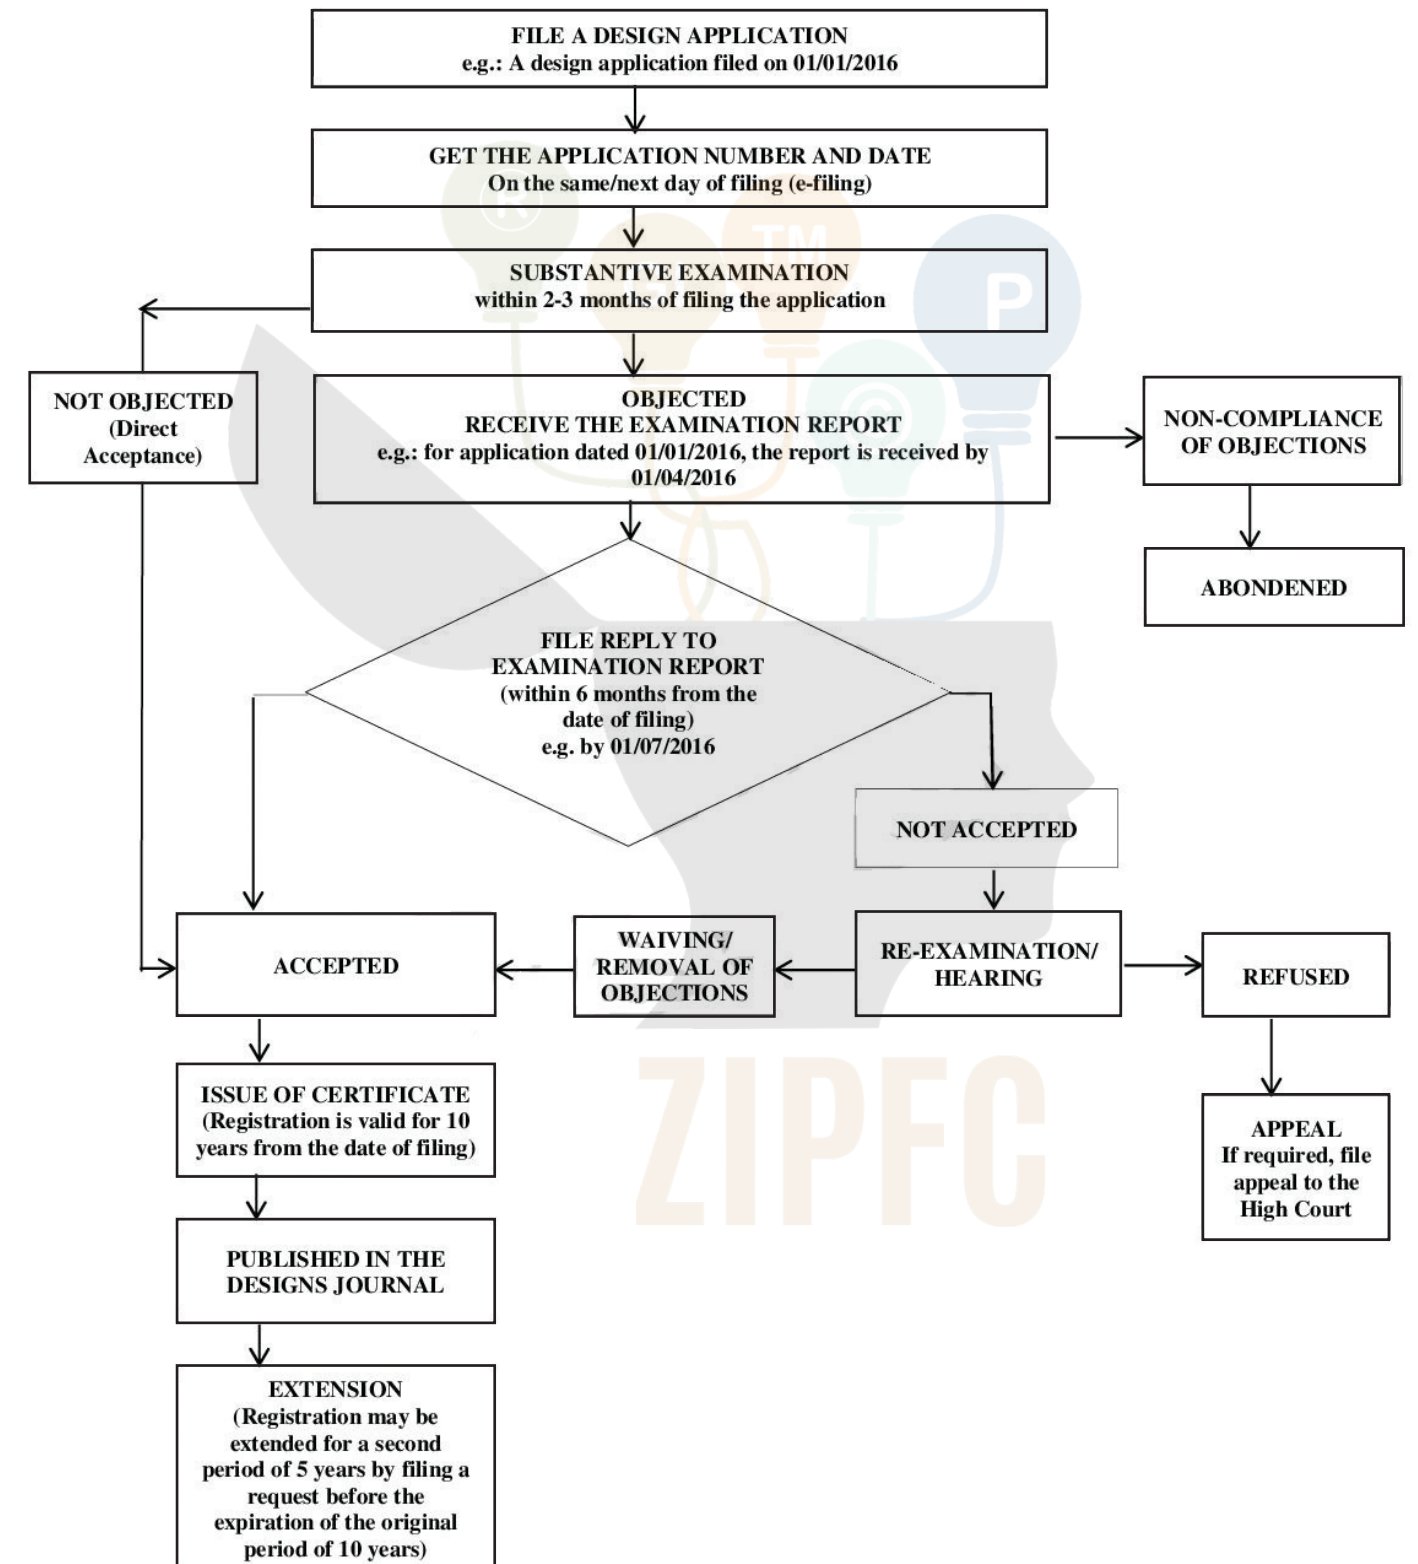

Last but not the least, the feeling of creating something valuable and unique is magical! The Sheer happiness and Pride that comes with creating a unique product or service which is solely yours and backed up by the law is in itself worth all the hardships that went in to create your Intellectual Property.

Subject: Letter of Thanks....

Respected sir,

The Zeal Education Society's ZCOER & ZIPFC would like to thank you for enlighten us on one of the important topics. Your talk on "**Intellectual property rights**" was one of the best and interesting topics to be studied by our faculties & students. It was an honor for Zeal College of Engineering and Research & ZIPFC to have you as our resourceful eminent speaker.

We believe that the knowledge you have shared will help immensely in the development of the faculties & students and eventually translate into better future for them in this sector.

We know that your time is precious and we are grateful you shared some of it with us. We look forward to get more time from your side to arrange such seminars in future.
