Report on Largest Human Map of India-Bharat

Department: IT

Semester: II

Academic Year: 2017-18

Date: 27/01/2018

Introduction:

The "Largest Human Map of India-Bharat" was organized by the Zeal Education Society, Narhe Campus, Pune on 25/01/2018. The aim of the event was to create awareness about the geography and diversity of India and to showcase the unity and pride of being an Indian.

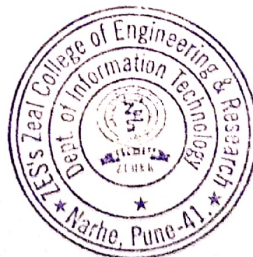

Highlights:

The event was a grand success, attracting a large number of participants. The following are some of the highlights of the event:

1. Over 1800+ students participated in forming the human map of India, with each student representing a state or union territory.
2. A display of the cultural diversity of India, with students dressed in traditional attire representing different regions of the country.
3. A display of the country's flag, with students singing the national anthem and shouting slogans of unity and patriotism.
4. The event received widespread media coverage, with several news outlets and media personalities showcasing the grand spectacle to a large audience

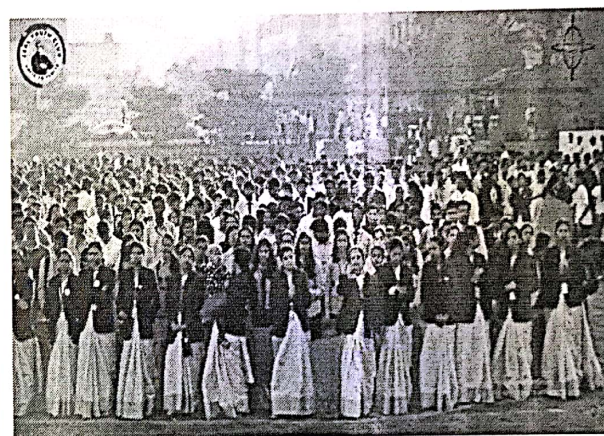

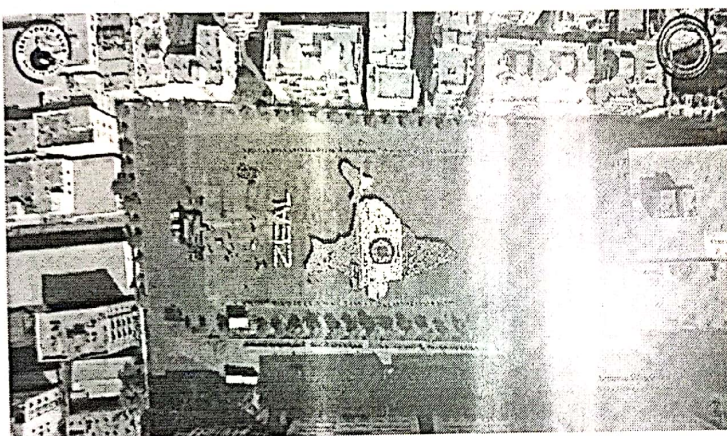

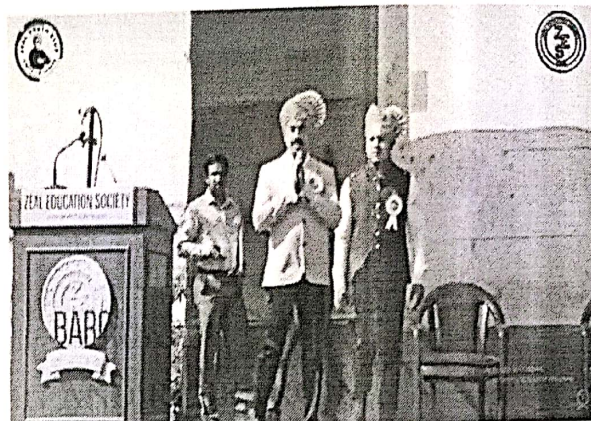

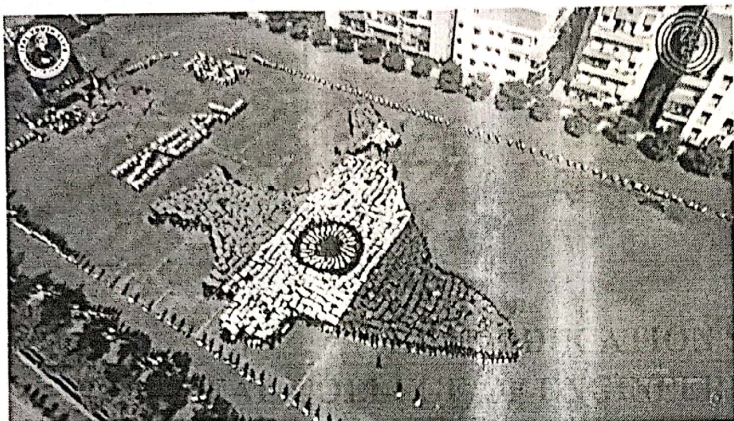

Conclusion:

The "Largest Human Map of India-Bharat" was a truly inspiring event, showcasing the unity and diversity of India. The organizers are to be commended for their efforts in creating an educational and patriotic experience for the participants. The event helped to instill a sense of pride and belonging among the students and raised awareness about the geography and culture of India. We hope to see similar events in the future.

Report on Human portraits of Architects of Swarajya

Department: IT

Semester: II

Academic Year: 2019-20

Date: 28/01/2020

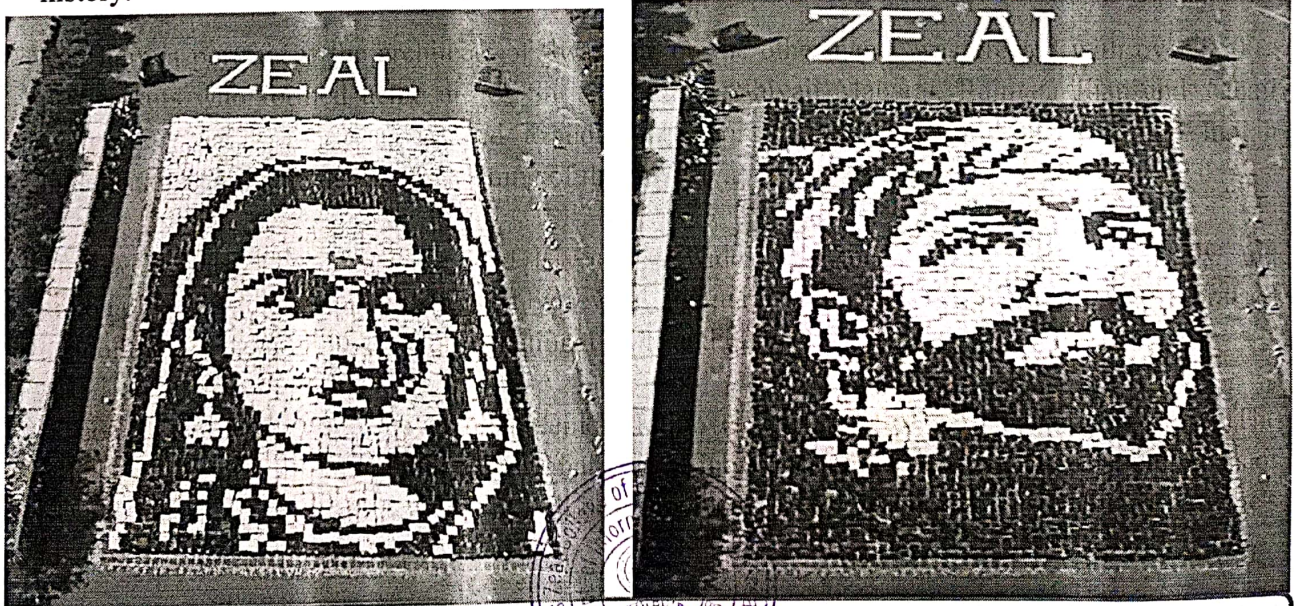

On January 26th January 2020, Zeal College successfully attempted to create the largest human flag of India and a human portrait of the architects of Swarajya. The event was held at the college campus and witnessed a massive gathering of students, staff, and local residents.

The human flag of India was created with over 4000+ students, staff and volunteers forming the tri-color of the national flag. The flag measured an impressive and broke the previous record for the largest human flag of India.

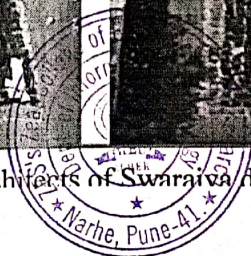

The human portrait of the architects of Swarajya, on the other hand, was created with over 3500+ participants who formed a mosaic of Shri. Chatrapati Shivaji Maharaj, Rajmata Jijau and Tanaji Malusare. The portrait was created to honor the contribution of these leaders in the Indian independence movement and the framing of the Swarajya.

The event was a great success, and it received widespread media coverage, both locally and nationally. The event was also attended by several dignitaries, including local politicians, who praised the college for its effort in promoting national pride and unity.

In conclusion, the event was a great demonstration of the spirit of nationalism and unity. The college's attempt at creating the largest human flag of India and the human portrait of the architects of Swarajya was a remarkable feat, and it will be remembered as a significant milestone in the college's history.

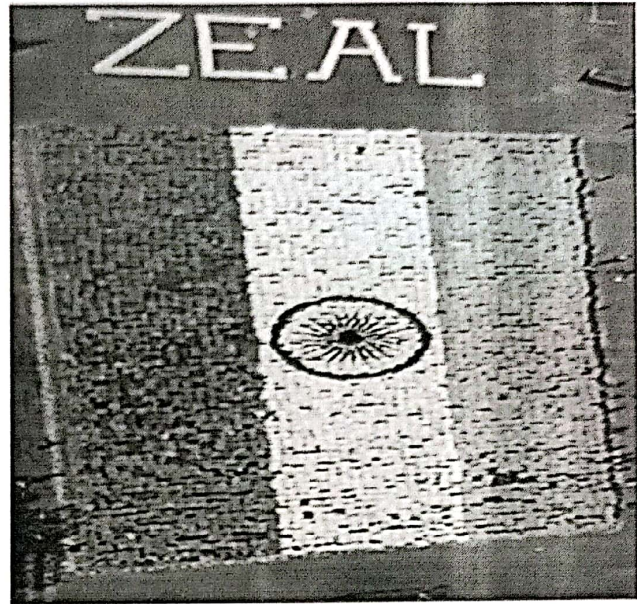

Human portrait of the Architects of Swarajya dated on 25th January 2020

Subject: Regarding re-calibration of PUC Unit (4 Gas Analyzer).

Respected Sir,

With reference to subject mentioned above, we are planning to conduct the mega PUC Checking of Two wheeler at our college as a social activity. The budget regarding this activity has been already submitted to Institute. For this activity we are planning to use our departmental PUC Checking unit (4 Gas Analyzer).

The calibration period of the said unit is expired on 26-1-2018. After calibration, we can use the above said unit for issuing PUC certificate. In order to carry out the re-calibration we wish to spend expenses through our departmental MESA fund. The tentative expenditure towards the same is Rs.7080/- incl.18% GST as per communication with **Sohamm Calibration Services, Kalewadi, Pune.**

So, we hereby kindly request you to permit us to carry out the re-calibration of PUC measuring instrument.

Thanking you,

Yours faithfully,

Respected Sir,

Batmobile is regarded as the ultimate superhero car in the DC Comics Universe. The indestructible Batmobile has featured in many movies and with every new movie, the vehicle only becomes more aggressive looking. Batmobile is a fantasy thing just like the superheroes but there are many who would love to experience the life of a superhero! There are many replica Batmobiles around the world. In India, a group of students have made a replica of the latest Batmobile and it looks insane!

The project is funded by the college and is made from scratch by a group of students. The Batmobile looks quite realistic in the videos and it gets all the bling on the outside too. Talking about the vehicle itself, everything has been made by the in-house team including the roll cage of the vehicle. To start with, the students first made a scale model of the Batmobile, which was used as a reference to make the life-size model of the Batmobile. The project took around 50 days to complete, which is a very short time for such a project. The total cost? According to the video, it took only Rs 3.58 lakhs for the whole project.

Regards,

Dr.A.B.Ubale

HOD Mechanical Engineering

Zeal College of engineering and Research Narhe, Pune, institute has maintained high standards of effective teaching learning and self development of students. For application of the theoretical knowledge to practical world

When it comes to sustained growth, innovation is key and, in this endeavour, new products are designed and developed by industries as per the evolving market needs. Small business and large enterprise invest time, effort, resources, and a substantial amount of money to design, manufacture, and assemble electronics and other types of new-age industrial products that are optimized for functioning even in harsh environments.

New product designing includes system components design, assembly of the product, checking of the individual components, final assembly and testing. The process of product design involves activities such as deciding on the mechanical architecture, selecting materials and processes that meet the environmental requirements, engineering the various components that are necessary to make the product work, and finalizing the look and feel of the product.

Development, on the other hand, involves identifying new opportunities in the market and building products that appeal to the needs of the selected market. The focus of a product design and development process lies in refining or modifying the products to a final prototype and testing.

Developing new products is an involved task. It is not only time-consuming and costly but a huge risk to investment if the right resources are not involved. Hence, it is crucial to involve experts with proficient technical skills who have rich experience in product design and development. The leadership of the product development companies and teams should have prior experience in strategy formulation and implementation in product commercialization.

With the help of product development companies that render such spec to product engineering services, dynamic products can be designed with efficiency and ease. They can also assist with the evolution of the mission-critical designs by conducting in-depth research, and by putting in the hours required for the engineering, prototyping, modifying, or re-testing of the product.

User-centric design and effective development using state of the art technology encourage customers to see the true benefit and value of the products. The quality and performance of your products can significantly help your business to perform to its optimal best and gain an edge over competitors.

Based on the above grounds and the enthusiasm of the students together decided that we will make something innovative and challenging task. By keeping in view we find the batmobile tumbler car which is not only a complex in designing but manufacturing is also very difficult based on the existing resources available in and near to the Pune.

Nothing was available when a team of students, staff and Faculty members were started the execution this project. Based on a toy car every minute details of external panels were designed. After a lot market survey based on the market survey the engine is finalized as Mahindra Xylo engine with 2498 cc and its hub are finalized as wheel hub.

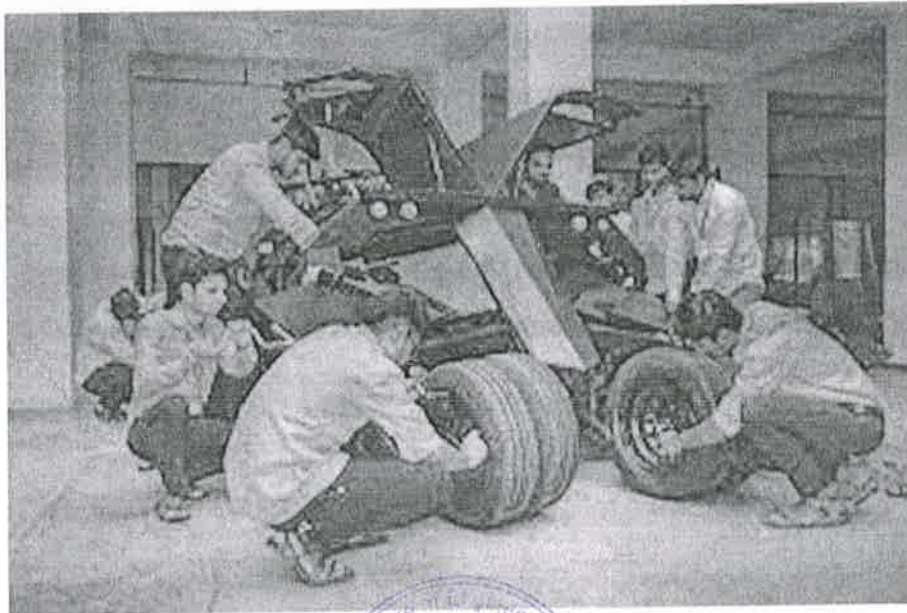

One by one all chassis members are designed and manufactured, engine , transmission line and wheels are assembled and then started the design and manufacturing the body panel. Before the final assembly non coated panels were mounted on the vehicle and testing was done. Once the testing is completed satisfactorily panels were powder coated and final assembly is done. The inauguration of the vehicle is done on 3 July 2019. The project was started on 21 April 2019.

Till today vehicle is kept for demonstration at various placed and more than 100K views are present in an online and off line mode.

REVVED UP WITH A 'BATMOBILE'

PUNE: Mechanical engineering students of ZeeL College of Engineering and Research inaugurated their 'Batmobile' on Wednesday at Navi path. A team of four students under the guidance of faculty members designed and built a hand-made car resembling the Batmobile. It is a hand-made concept car derived from the super hero movie Batman. The car is built by synthesizing 25 different vehicles components. It is a hand-made project of 12 months. Along with the team of four students, there was a supporting team of faculty and instructors who have contributed as well. Lead Designer, head of mechanical department of ZeeL College of Engineering and Research. The students who worked on this project are in their final year of mechanical engineering - Sudhesh Shinde, Anurag Kulkarni, Vivek Gaurav and Vedant Jagtap. Vivek Gaurav said "This was a wish had theoretical knowledge but after working on this project many new concepts and ideas emerged." The car which seats two has a three-cylinder engine. The engine has applied for a patent for this car.

All the student and faculty members are to inform you that as we all know, the birth anniversary of Bharat Ratna Dr. Babasaheb Ambedkar, the architect of the Indian Constitution, falls on April 14th. In honor of his immense contribution to Indian society and to promote his ideas and values, the college will be celebrating his birth anniversary on 14/04/2019 at 10.00am in A building Admission Hall.

We hope that this celebration will help spread awareness about Dr. Ambedkar's work and inspire students to follow in his footsteps.

**One page report on Celebration of Birth Anniversary of Bharat Ratna Dr. Babasaheb
Ambedkar**

The birth anniversary of Bharat Ratna Dr. Babasaheb Ambedkar, the father of the Indian Constitution, was celebrated on April 14th with great enthusiasm and respect. The occasion was marked to honor the legacy of this great leader and to promote his ideas and values among the students.

The birth anniversary of Bharat Ratna Dr. Babasaheb Ambedkar, the father of the Indian Constitution, was celebrated with great reverence and respect on April 14th. This occasion is a reminder of the immense contribution that Dr. Ambedkar made to Indian society and his tireless efforts to promote equality, justice, and human rights.

The celebration of the birth anniversary of Bharat Ratna Dr. Babasaheb Ambedkar was a great success. The Celebration provided students with an opportunity to learn more about this great leader and his ideas, and also gave them a chance to showcase their talents. The college is proud to have been able to honor the legacy of Dr. Ambedkar and will continue to do so in the years to come.

Principal, Head of Departments, faculty members and students were present for the said occasion.

**One page report on Celebration of Rajmata Jijau Jayanti and Swami Vivekananda Jayanti
(National Youth Day)**

Zeal Education Society's Narhe Campus, Pune paid tribute to Rajmata Jijau Bhosale, the mother of Chatrapathi Shivaji Maharaj and Swami Vivekananda, a great philosopher & social reformer on their birth anniversary.

Rajmata Jijau Jayanti marks the day when Chatrapathi Shivaji Maharaj's mother, Jijabai Bhosale, Kingmaker and A Powerful Feminist Woman was born, on January 12.

Rajmata Jijau Jayanti honours Rajmata for her role in shaping Shivaji Maharaj's life, the strong upbringing she gave him and how it helped him become the great leader of the Maratha empire. It was Jijamata's courage, strong sense of duty, self-respect and resilience that inspired Shivaji Maharaj to become the greatest Maratha ruler and warrior. Rajmata Jijau Bhosale was a feminist who believed in doing the right thing, no matter what the circumstances.

National Youth Day, also known as Swami Vivekananda Jayanti, is celebrated in India on January 12 to commemorate the birth anniversary of Swami Vivekananda, one of India's most influential spiritual leaders and thinkers. He was a philosopher, monk, and teacher who played a key role in the Indian independence movement and the resurgence of Hinduism in India. He is also known for his contributions to the field of education and his efforts to empower the youth of India. His teachings on education, nationalism, and spirituality continue to be relevant and have a great impact on the youth of India.

Technical inspection of all participating teams was done on day one in which Kart was inspected by experts from Automotive Industry. In technical inspection Kart was tested to check whether it is manufactured according to specification given in the rulebook or not. After successful completion of Technical Inspection teams were eligible for the brake test.

Design Report VS Vehicle Analysis

The vehicle will be verified with the design report and not even a single alteration would be entertained in the vehicle from the design report.

Dynamic Tests

BRAKE TEST

It was mandatory for a vehicle to pass the brake test to participate in any of the dynamic events. The brake test was conducted on 8m straight course of track with speed of 40km/hr while attempting brake test.

The vehicle must stop in a straight line after the brake is applied on the vehicle and the wheels on which the brake mechanism is acting must get locked immediately after pedal is pressed as well as break light must blink. Each vehicle was given only three attempts to pass the brake test. Vehicle dynamic stability was also checked during the test. Only two teams were disqualified in brake test.

Acceleration Test

The acceleration of the kart was evaluated during the brake test. Acceleration of the vehicle in attempt in which the vehicle is passing brake test was considered as final.

The objective of the autocross event was to evaluate the vehicle's maneuverability and handling qualities on a tight course without the hindrance of competing vehicles. The autocross track was designed to evaluate combined performance features of acceleration, braking, and cornering ability.

Endurance

The Endurance Event was conducted on day 3. It was designed to evaluate the overall performance of the vehicle and to test the vehicle's reliability.

Skid Pad

The objective of the skid-pad event was to measure the vehicle's cornering ability on a flat surface while making a constant-radius turn. The skid pad layout was a figure of 8

Eminent personalities form industry as well as academies were appointed as the judges. Students presented their work and planning to these judges, evaluation of these participating teams was done based on their presentation and quality of their work. Judges also suggested the modification (if required) to the teams.

EVALUATION CRITERIA

Sr. No.	Categories	Particulars	Criteria Description	Total Marks	Marks Scored
1	VehicleDesign	Vehicle Specifications	Preliminary technical specifications & overall performance targets. 2D/ 3D views of the proposed vehicle design.	15	
2		Rulebook Knowledge	Adherence to Rulebook and knowledge of all the rules.	15	
3		Roll Cage	Design methodology for roll cage, proposed engineering process for FEA – load cases and constraints, criteria for Factor of Safety & deformations. Actual FEA results and interpretation. Ergonomics knowledge related to vehicle cock pit lay out – driver seating lay out, ease of egress, vision and controls.	30	
4		Steering	Design considerations/lay out/basic calculations for selection of steering gear, turning circle, turning angles, camber and caster angles, etc.	30	
5		Powertrain	Design considerations/lay out/basic calculations. Engine Specification, Vehicle performance prediction e.g. vehicle max speed, acceleration, etc.	30	
6		Brakes	Design considerations/lay out/basic calculations for brake's type selection (disc/ drum brakes). brake circuit lay out/actuation, dynamic load transfer, stopping distance, deceleration, pedal effort etc.	30

2. MAIN EVENT

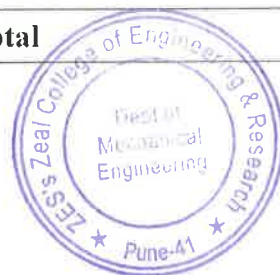

Date: 30th – 31st March – 1st April 2017

Venue: Zeal College of Engineering And Research, Narhe , Pune

The inauguration of the program was done by Mr. Satish Hirve, Head, Sourcing Department, Ashok Leyland in presence of Mr. Jayesh S. Katkar, Executive Director, ZES, Dr. Sanjay Deokar, Campus Director, ZCOER, Dr. Kate A.M., Principal, ZCOER-Pune, Dr. Dambhare S. G. Convener, Zeal Drag & H.O.D, Mechanical Department (Shift-I), Dr. Ubale A. B. H.O.D, Mechanical Department (Shift-II).

Main event was divided in to two categories namely Static round and Dynamic round, under which different events were conducted as tabulated below.

S.N.	CATEGORY	EVENT	MAXIMUM POINTS
1	STATIC ROUND	Vehicle Design Vs Analysis	50
2		Cost Report Vs Vehicle Cost	50
4		Manufacturing Quality	100
5		Design Report Discussion	50
6		Innovation (Implimentation)	50
7		Business case presntation	50
1		DYNAMIC ROUND	Skid Pad
2	Auto cross		50
3	Drag Race		100
4	Endurance		150

Static Tests

TECHNICAL INSPECTION

Technical inspection of all participating teams was done on day one in which Kart was inspected by experts from Automotive Industry. In technical inspection Kart was tested to check whether it is manufactured according to specification given in the rulebook or not. After successful completion of Technical Inspection teams were eligible for the brake test.

Design Report VS Vehicle Analysis

The vehicle will be verified with the design report and not even a single alteration would be entertained in the vehicle from the design report.

Tilt Test

In this vehicle will check for fuel leak at 45 degree tilted position.

Egress Test

Maximum driver out time is 5sec, within this interval of time driver has to come out of the vehicle.

Go and No-Go Test.

This is done for check overall dimensions of vehicle.

Dynamic Tests

BRAKE TEST

It was mandatory for a vehicle to pass the brake test to participate in any of the dynamic events. The brake test was conducted on 8m straight course of track with speed of 40km/hr while attempting brake test.

The vehicle must stop in a straight line after the brake is applied on the vehicle and the wheels on which the brake mechanism is acting must get locked immediately after pedal is pressed as well as break light must blink. Each vehicle was given only three attempts to pass the brake test. Vehicle dynamic stability was also checked during the test. Only two teams were disqualified in brake test.

Acceleration Test

The acceleration of the kart was evaluated during the brake test. Acceleration of the vehicle in attempt in which the vehicle is passing brake test was considered as final.

Autocross

The objective of the autocross event was to evaluate the vehicle's maneuverability and handling qualities on a tight course without the hindrance of competing vehicles. The autocross track was designed to evaluate combined performance features of acceleration, braking, and cornering ability.

Endurance

The Endurance Event was conducted on day 3. It was designed to evaluate the overall performance of the vehicle and to test the vehicle's reliability.

Skid Pad

The objective of the skid-pad event was to measure the vehicle's cornering ability on a flat surface while making a constant-radius turn. The skid pad layout was a figure of 8

Drag Test

Drag racing is a type of motor racing in which karts compete, usually two at a time, to cross a set finish line. The race follows a short, straight course from a standing start over a measured distance. Electronic timing has been used to record race results. It was conducted on day 2 of the event.
