

B.E Project

(2022-23)

Savitribai Phule Pune University, Pune
B. E. Civil (2019 Pattern) w. e. f. June 2022
401 005: Project Stage I

Teaching scheme	Credit	Examination scheme
Practical: 04 Hours/week	01	Term Work: 50 Marks
	02	Oral: 50 Marks

Pre-requisites

Fundamentals of Civil Engineering

Course objectives

- 01 Identify latest technical/practical problems in the field of Civil Engineering.
- 02 Inculcate the ability to describe, interpret and analyze technical content.
- 03 Develop competence in preparing report which will enhance critical thinking and develop the skill of technical writing along with presentation.

Course outcomes

On successful completion of this course, the learner will be able to:

- 01 Appraise the current Civil Engineering research/techniques/developments/interdisciplinary areas.
- 02 Review and organize literature survey utilizing technical resources, journals etc.
- 03 Evaluate and draw conclusions related to technical content studied.
- 04 Demonstrate the ability to perform critical writing by preparing a technical report.
- 05 Develop technical writing and presentation skills.

Term Work

The Project Stage I report should contain the following. Internal guides may prepare a continuous evaluation sheet of each individual and refer as continuous assessment for term work marks.

- 01 Introduction of the topic, its relevance to civil engineering, need for the study, aims and objective, limitations.
- 02 Literature review from reference books, journals, conference proceedings, published reports/articles/documents with conclusion. The literature review should be from published literature in the last five years.
- 03 Problem statement and methodology
- 03 Theoretical contents related to the chosen topic or case studies if applicable.
- 04 Concluding remarks or summary.
- 05 References

Oral Examination: The students must prepare presentation on Project Stage I and present in presence of pair of examiners through a viva-voce examination.

List of Last 3 Years Project Titles

Sr. No	AY 2021-22	AY 2020-21	AY 2019-20
1.	Analysis of pandemic effect on project management by using Primavera software	IoT Based Leakage detection system for water supply scheme	Estimation of discharge in canal Using empirical formula and verification of the same by Using ADCP
2.	Exposure assessment of particulate matter	Structural Audit and Retrofitting of RCC Structures	Application of Soft Healing Concrete
3.	Flood forecasting using Artificial Neural Network and Alarm system by Internet of Things	Study of Landslides around dam site: A Case study of Malin Village	Computer aided analysis and design of high rise building with shear wall
4.	Use of steel fibers in the construction of heavy industrial floor	Seismic Analysis of RCC Structures with Various Type of Bracing System using ETAB	comparative study of natural fibers in SAM using different stabilizers
5.	Analysis and Design Of Offshore Jacketed Structure	EFFECTIVE REPLACEMENT OF CEMENT BY GGBS & CERAMIC WASTE FOR ESTABLISHING SUSTAINABLE CONCRETE	Structural Health monitoring By piezo Ceramic Transducer
6.	Use of ERP Software in Tracking of project progress	STEEL INTENSIVE BUILDING FOR RURAL APPLICATION	A combine Distillation and Softening Approach for the Drinking water by Hydrodynamic cavitations

ZEAL COLLEGE OF ENGINEERING AND RESEARCH
NARHE | PUNE -41 | INDIA

Date: 01/04/2021

Record No.: ZCOER-ACAD/R/40

Revision: 00

7.	Comparative study of sanitary landfills and biomining for municipal solid waste management	Prediction of Pan Evaporation by Artificial Neural Network	Design and development of module kitchen waste composter for Household utility
8.	River Rejuvenation of Mutha River & embankment mapping by application of GIS Software	Experimental study of SBR using Moving Beds	PLANNING FOR SUSTAINABILITY TOWNSHIP KAMTEH MALA FURSUNGI PUNE
9.	Streamflow forecasting by Artificial Neural Network	Jambhulwadi Lake water remediation	Casting Flexible Pavement By Recycling OLD asphalt pavement material.
10.	Geospatial analysis of landslide episode in Chiplun (MS)	Soil stabilization by using spent wash	Development of New R.C.C. design Software
11.	Seismic analysis of tall building	Effect of polypropylene fibre reinforcement on concrete as compared to normal concrete	Structural Audit and Retrofitting
12.	Hydrodynamic studies for proposed development of passenger jetty at Janjira	FERROCEMENT TECHNOLOGY	Stabilization of black cotton soil for sub grade of pavement
13.	Analysis of different types of wall panels under blast loading	Identification of accidental black spots from new katraj tunnel to sarola and remedial measures	Rainfall Runoff Modelling using SCN - CN & GIS approach in GAGAN BAVDA Water shade KOLHAPUR
14.	Seismic Analysis of Interlocking Blocks in Walls	Soil Stabilization by using Construction Demolition waste	Design Of Ogee Spillway

Revision: 00

Date:01/04/2021

15.	Rehabilitation Plan and Schedule of Nilaji-Bamni	Analysis of non-linear loads acting on an offshore superstructure	Analysis and Design of castellated Beam
16.	Grey water treatment with low cost treatment method	Use of Offshore Sand as fine aggregate in concrete	-
17.	Thrifty homes for economically weaker session	Quantification Health Risk Associated with Air pollution	-
18.	Design of 21 story earthquake resistant building with seismic analysis	Soil Stabilization by using Eco Friendly Materials	-
19.	Use of red mud as a replacement of concrete	-	-
20.	Post Tensioning of Structure	-	-
21.	Rotating Bridge	-	-
22.	Estimation of G+3 building using software	-	-
23.	Design of G+3 building using Revit Architecture software	-	-

Semester: I

Academic Year: 2022-2023

Date: 16/07/22

All Students of Final Year Civil Engineering are hereby informed to form group of not more than four members voluntarily until 18/07/2022, 04.00 pm. If failed to do so, groups will be created with random selection of students and will not be changed under any circumstances.

The final group formation list will be displayed on department notice board until 19/07/2022. Grievances if any will be entertained only on the same day.

The formation of group will be done using Google Sheets whose link will be shared to you through WhatsApp.

Notice

Department: Civil

Semester: I

Academic Year: 2022-2023

Date: 23/07/22

All Students of Final Year Civil Engineering are hereby informed that the project allocation list is displayed on department notice board. Meet your respective project supervisor to discuss the project topic at the earliest.

Grievances if any regarding the same will be entertained until 05.00 pm, 25/07/22.

Notice

Department: Civil

Semester: I

Academic Year: 2022-2023

Class: BE

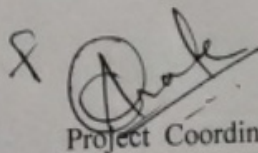

Date: 27/07/2022

All Students of Final Year Civil Engineering are hereby informed that, Project stage-I Review-I of B.E. Project is scheduled from 4/8/2022 to 6/8/2022

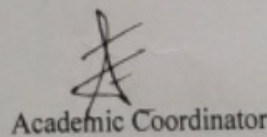

The project review presentation should contain following points:

- Introduction of the topic
- Its relevance to civil engineering
- Need for the study
- Problem Statement
- Aims and Objectives
- Limitations of study
- The assessment will be based on following points for marking:
 - Rubric 1: Feasibility (10marks)
 - Rubric 2: Social Impact (10marks)
 - Rubric 3: Productability (10marks)
 - Rubric 4: Literature Support (10marks)
 - Rubric 5: Innovative Idea (5marks)

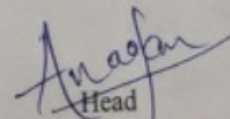

Note : The respective Project review panel will shortlist the best defended topic among the choices and will update the finalized project topic of their respective allotted groups.

Schedule of Project Review

Department: Civil
Class: B.E.

Semester: I
Div: NA

Academic Year: 2022 - 2023
Date: 03/08/2022

The Project Review presentation is organized as given in schedule below. The Session In-charges will evaluate the session with Project Guide. Students are required to present their presentations in the sessions of their respective guides.

Session	Date	Time	Location	Session In-Charges	Name of Project Guides	Group No.
1	04/08/22	11.30 - 12.30	CAD Lab	1. Prof. A. R. Bansode 2. Prof. S. M. Mali	Dr. P. P. Walvekar	CE2202
					Prof. S. M. Mali	CE2211
					Dr. P. P. Walvekar	CE2210
					Prof. A. R. Bansode	CE2217
					Prof. S. M. Mali	CE2219
2	04/08/22	12.30 - 01.30	CAD Lab	1. Prof. S. D. Redekar 2. Prof. A. R. Bansode	Prof. S. D. Redekar	CE2205
					Dr. G. S. Anaokar	CE2206
					Prof. A. R. Bansode	CE2207
					Dr. G. S. Anaokar	CE2208
					Prof. S. D. Redekar	CE2220
3	04/08/22	02.15 - 03.15	CAD Lab	1. Prof. A. V. Wakchaure 2. Prof. V. A. Chaudhari	Prof. A. V. Wakchaure	CE2201
					Prof. P. K. Nawale	CE2203
					Prof. S. D. Redekar	CE2209
					Prof. A. V. Wakchaure	CE2212
					Prof. A. A. Turate	CE2204
4	04/08/22	03.15 - 04.15	CAD Lab	1. Prof. L. H. Havalagi 2. Prof. S. M. Mali	Prof. L. H. Havalagi	CE2213
					Prof. A. A. Turate	CE2214
					Prof. U. U. Buch	CE2215
					Prof. L. H. Havalagi	CE2216
					Prof. U. U. Buch	CE2218

GENERAL INFORMATION AND CODE OF CONDUCT FOR PROJECT REVIEW - I

1. Students should follow formal dress code for the Project Review along with college ID.
2. It is not mandatory to make a Project Review Report for this review.
3. Students should carry power point presentation (as per design template provided earlier) with them in soft copy on e-mail and in pen drive.
4. Students should carry Project Diary completed in all respect with signature of Guide in it.
5. Students should report to the venue in advance of the scheduled time. The venue will be CAD lab for this review.
6. All Project reviews will be conducted on 4/8/22, 11.30 am onwards.
7. It is duty of every project group to invite your project guide for the project review. No presentation will be accepted in absence of guide and absentee of that group will be noted.
8. A review panel has been formed to check and verify the feasibility of the project in all aspects.
9. Repeat presentations with corrections suggested by review panel will be conducted on 5/8/22 and 6/8/22. For repeat presentations, schedule will be as per the convenience of review panel members and it will be duty of that particular group to contact and request the reviewers to schedule repeat presentation.
10. It is mandatory to make all necessary corrections and improvements / modifications suggested by review panel members and project coordinator. If the review panel / project coordinator is not convinced with your presentation, the review panel and/or project coordinator may reject or suggest modifications for the said project.
11. If the review panel is convinced and recommends approval of project to project coordinator, then the project coordinator may after consulting the project guide, will have the authority to either accept or reject or accept after modifications, the submitted project.
12. Attendance of every Project member for Project review is mandatory.
13. Language of communication for Project Review will be English.
14. Time allotted for each group is 15 mins including 05 mins Q & A session.

BE Project Sheet (Review No: 1)
Semester: I/II
Aggregate Concrete
Group No: CE2204

Academic Year: 2022-23
Project Title: Feasibility Study of Nano-materials to improve performance of Recycled Aggregate Concrete.
Date: 04/08/22

Guide Name: **A. A. Turate**

Name of Student	Marks Distribution (Reviewer 1)				Total Marks (50)	Marks Distribution (Reviewer 2)					Total Marks(50)	
	Regularity (15)	Literature Survey (10)	Prerequisite Experimentation (10)	Presentation (10)		Documentation (5)	Regularity (15)	Literature Survey (10)	Prerequisite Experimentation (10)	Presentation (10)		Documentation (5)
Mahesh N. Chawan	13	8	7	7	4	39	10	07	06	07	03	23
Tushar B. Lokare	13	8	7	7	4	39	10	07	06	07	03	23

Notice

Department : Civil

Semester : I

Academic Year: 2022-2023

Class: BE

Date: 22/09/2022

All Students of Final Year Civil Engineering are hereby informed that, Project stage- I, Review- II of B.E. Project is scheduled as follows:

Venue	Reporting Time	Date	Group
CAD Lab	09:15 AM	26/09/22	CE2211 to CE2219
		27/09/22	CE2201 to CE2210

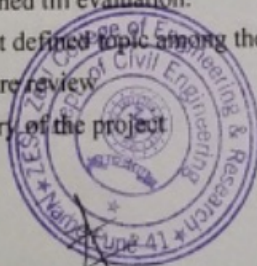

The project review presentation shall contain following points :

- Introduction of the topic, its relevance to civil engineering, need for the study, aims and objective, limitations.
- Literature review from reference books, journals, conference proceedings, published reports / articles / documents with conclusion. The literature review should be from published literature in the last five years.
- Problem statement and methodology
- Theoretical contents related to the chosen topic or case studies if applicable.
- Concluding remarks or summary.
- The assessment will be based on following points for marking:
 - Rubric 1: Regularity, which includes weekly communication with guide and prerequisites attained till evaluation.
 - Rubric 2: The best defined topic among the choices
 - Rubric 3: Literature review
 - Rubric 4: Summary of the project

GENERAL INFORMATION AND CODE OF CONDUCT FOR PROJECT REVIEW - II

1. Students should follow formal dress code for the Project Review along with college ID.
2. It is not mandatory to make a Project Review Report for this review.
3. Students should carry power point presentation (as per design template provided earlier) with them in soft copy on e-mail and in pen drive.
4. Students should carry Project Diary completed in all respect with signature of Guide in it.
5. Students should report to the venue in advance of the scheduled time.
6. It is responsibility of every project group to invite your project guide for the project review. No presentation will be accepted in absence of guide and absentee of that group will be noted.
7. A review panel has been formed to check and verify the feasibility and work progress of the project in all aspects.
8. Repeat presentations with corrections suggested by review panel will be conducted on 28/09/22. For repeat presentations, schedule will be as per the convenience of review panel members and it will be responsibility of that particular group to contact and request the reviewers to schedule repeat presentation.
9. It is mandatory to make all necessary corrections and improvements / modifications suggested by review panel members and project coordinator. If the review panel / project coordinator is not convinced with your presentation, the review panel and/or project coordinator may suggest modifications in project.
10. If the review panel is convinced and recommends approval of project to project coordinator, then the project coordinator may after consulting the project guide, will have the authority to either accept or reject or accept after modifications, the submitted project.
11. Attendance of every Project member for Project review is mandatory.
12. Language of communication for Project Review will be English.
13. Time allotted for each group is 15 mins including 05 mins Q & A session.

Class: BE

Date: 17/02/2023

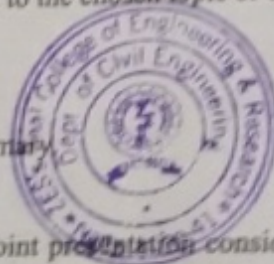

All Students of Final Year Civil Engineering are hereby informed that, Project stage-II, Review- I of B.E. Project is scheduled as follows:

Venue	Reporting Time	Date	Group
CAD Lab	07:30 AM	02/03/23	CE2201 to CE2210
		03/03/23	CE2211 to CE2219

Note – Students are informed to restart your work, finalize your action plan for semester II. Report to your respective project guide in between 20th to 23rd February 2023 and complete your review work.

The project review presentation shall contain following points:

- Introduction of the topic, its relevance to civil engineering, need for the study, aims and objective, limitations.
- Literature review from reference books, journals, conference proceedings, published reports / articles / documents with conclusion. The literature review should be from published literature in the last five years.
- Problem statement and methodology
- Theoretical contents related to the chosen topic or case studies if applicable.
- Progress of project work.
- Plan for semester II
- Concluding remarks or summary
- References

The students must prepare power point presentation considering above points and present in presence of examiners through a viva-voce examination.

Notice

Department : Civil

Semester : II

Academic Year: 2022-2023

Class: BE

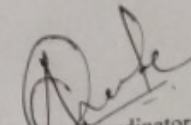

Date : 29/03/2023

All Students of Final Year Civil Engineering are here by informed that, Project stage-II, Review- II of B.E. Project is scheduled as follows:

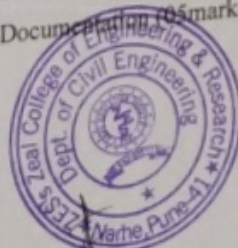

Venue	Reporting Time	Date	Group
CAD Lab	07:30 AM	02/03/23	CE2201 to CE2210
		03/03/23	CE2211 to CE2219

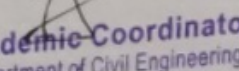

The project review presentation shall contain following points :

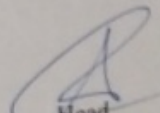

- The Internal assessment panel will verify the prerequisites of desired topic,
- Proper flow and aim of project will be advised
- Scope for providing sponsorship will be verified
- The assessment will be based on improvement on comments from review- I on following points for marking :
 - Rubric 1 : Regularity (15 marks)
 - Rubric 2 : Literature survey (10marks)
 - Rubric 3 : Prerequisite/Experimentation (10marks)
 - Rubric 4 : Presentation (10marks)
 - Rubric 5 : Document Preparation (05 marks)

Pranav Mote	12	8	8	8	3	12	8	8	8	3	39
Sarvadeep Wagh	12	8	9	8	3	12	8	8	8	3	39

Comments of Reviewer 1

Define problem statement clearly.

Comments of Reviewer 2

Need to study on properties of nano-materials

Notice

Department: Civil

Semester : II

Academic Year: 2022-2023

Class: BE

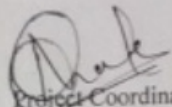

Date: 19/05/2023

All Students of Final Year Civil Engineering are hereby informed that, Mock project Phase II presentation of B.E. Project is scheduled as follows :

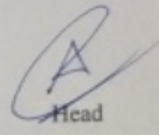

Venue	Reporting Time	Date	Group
CADLab	07:30AM	29/05/23	CE2201 to CE2210
		30/05/23	CE2211 to CE2219

The project review presentation shall contain following points:

- Introduction of the topic, its relevance to civil engineering, need for the study, aims and objective, limitations.
- Literature review from reference books, journals, conference proceedings, published reports / articles / documents with conclusion. The literature review should be from published literature in the last five years.
- Problem statement and methodology
- Theoretical contents related to the chosen topic or case studies if applicable.
- Result and conclusion
- Reference
- The assessment will be based on improvement on comments from review-I and review II on following points for marking :
 - Rubric 1 : Regularity (15 marks)
 - Rubric 2 : Literature survey (10 marks)
 - Rubric 3 : Prerequisite Experimentation (10 marks)
 - Rubric 4 : Presentation (10 marks)
 - Rubric 5 : Documentation (05 marks)

Date: 01/04/2021

Internship Notice

Department: Civil Engineering

Semester: V

Academic Year: 2022-2023

Date: 04/11/2022

All the students of Third Year Civil Engineering are hereby informed that, as per SPPU curriculum every student must complete internship of duration 4 to 6 weeks, after 5th semester and before commencement of 6th semester. Herewith list of students submitted their names for Internship support from department and T&P cell. Only these students will get support for providing industrial internship.

Remaining students will have to complete internship by their own sources. Such students must report and collect necessary permission letters from Prof. Siddhant Mangolikar (T&P Coordinator) (Room A-010).

Instructions:

1. Received copy of permission letter from company must be submitted to T&P coordinator.
2. Students completing internship by their own sources must carry the address and contact details of internship providing firm.

Subject: Student internship program

Respected sir,

Zeal College of engineering and research, Narhe is one of the renowned institutions affiliated to Savitribai Phule Pune University and secured "A" grade of NAAC accreditation. Institute always aims to enable the students to be quality professionals by means of practical exposure at various workplaces and industries.

Department of Civil Engineering established in 2012. To bridge the gap between industry and academics, various practices are followed in the department. Student internship program is one of the activities which helps a lot to get an idea about industry know-how under the supervision of experts like you.

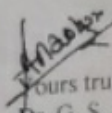

Please find the details of student deputed for internship program at your place.

ZPRN	Name of Student	Roll No.
121E20181	Shubham mangesh Khedekar	T111033

As per university curriculum they are supposed to attend the internship program for 4 to 6 weeks. We can depute our students from December 25th, 2022 to February 5th, 2023. After successfully completion of this program they will submit a report and certificate consisting your remarks about their performance and knowledge acquired.

Herewith requesting to convey any opportunity for our third year student for internship in your esteemed organization.

Thanking you,

Yours truly,

Subject: Student Internship program

Respected sir,

Zeal College of engineering and research, Narhe is one of the renowned institutions affiliated to Savitribai Phule Pune University and secured "A" grade of NAAC accreditation. Institute always aims to enable the students to be quality professionals by means of practical exposure at various workplaces and industries.

Department of Civil Engineering established in 2012. To bridge the gap between industry and academics, various practices are followed in the department. Student internship program is one of the activities which helps a lot to get an idea about industry know-how under the supervision of experts like you.

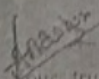

Please find the details of student deputed for internship program at your place

ZPRN	Name of Student	Roll No.
220E10305	Abhinav Satish Chakraborty	111066

As per university curriculum they are supposed to attend the internship program for 4 to 6 weeks. We can depute our students from December 25th, 2022 to February 5th, 2023. After successfully completion of this program they will submit a report and certificate consisting your remarks about their performance and knowledge acquired.

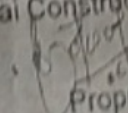

Herewith requesting to convey any opportunity for our third year student for internship in your esteemed organization.

Thanking you,

Yours truly,
Dr. G. S. Anand

Guidelines for the Internship

- 1. Duration:** Internship to be completed after semester V and before commencement of semester VI of at least 4 to 6 weeks. It is to be assessed and evaluated in semester VI.
- 2. Internship work Identification:** Student may choose to undergo Internship at Industry/Govt./NGO/MSME/Rural Internship/Innovation/IPR/Entrepreneurship. Student may choose either to work on innovation or entrepreneurial activities resulting in start-up or undergo internship with industry/NGO's/Government organizations/Micro/Small/ Medium enterprises to make themselves ready for the industry
- 3. Internship Diary/ Internship Workbook:** Students must maintain Internship Diary/ Internship Workbook. The main purpose of maintaining diary/workbook is to cultivate the habit of documenting. The students should record in the daily training diary the day-to-day account of the observations, impressions, information gathered and suggestions given, if any. The training diary/workbook should be signed after every day by the supervisor/ in charge of the section where the student has been working.

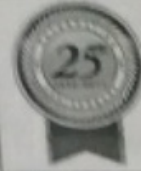

Internship diary/workbook and internship report should be submitted by the students along with attendance record and an evaluation sheet duly signed and stamped by the industry to the institute immediately after the completion of the training. Internship diary/workbook may be evaluated on the basis of the following criteria.

- i. Proper and timely documented entries
- ii. Adequacy & quality of information recorded
- iii. Data recorded
- iv. Thought process and recording techniques used
- v. Information of the Organization

This is certify that Mr Digvijay Ashok Jadhav, student of Third Year Civil Engineering (Roll No: - 7111021 J), ZEAL COLLEGE OF ENGINEERING AND RESEARCH NARHE, PUNE has successfully completed the one month internship training, from 30/01/2023 to 28/02/2023 at our site for the Construction of Roads and Gutters at Ashatavinayak Colony, at Vadgaon Maval, Pune (W.O. No. 997/2022)

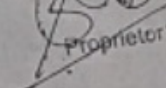

During his internship period we found him to be sincere & devoted to work. Also found that during the training, attendance and overall performance was very good. This certificate is issued upon his request without any objection of company.

We wish him all the best for his better future.

Thanking You.

NARHE | PUNE -41 | INDIA**

Record No.: ZCOER-ACAD/R/25A

Revision: 00

Date: 01/04/2021

Department: Civil

Semester: II

Academic Year: 2022-23

Class: SE

Div: NA

Date: 02/03/2023

All students of Second Year Civil Engineering are informed that the Project Based Learning (PBL) is going to be conducted in three phases as follows:

Sr. No.	Review stages	Structure	Mode of conduction	Recommended
1	Phase-1	Topic Finalization	Chalk & Board	There should be 3 topics with you relevant to domain. (Topic finalization be done after your knowledge & Presentation on board.
2	Phase-2	Problem Identification	PPT	There will be the problem identification to your selected topic.
3	Phase-3	Solution and Implementation	1. PPT 2. Report 3. Simulation presentation/ Demonstration of model/ Poster/ any other presentation format.	There will be overall assessment of project work.

Objectives:

- Identify the community/ practical/ societal needs and convert the idea into a product/ process/ service.
- Analyze and design the physical/ mathematical/ ICT model in order to solve identified problem/project.
- Create & work in team and applying the solution in practical way to specific problem.

Guidelines for selection of project:

- Selection of a project or problem related to any technical aspect related to the allotted domain of civil engineering.
- The project or problem selected may require a multi-disciplinary approach to find a solution.
- The project or problem selected should have different alternative solutions, which could be theoretical, a practical working model or non-working model, a demonstration, or a software analysis.

G.B. Dhumal

Prof. G. B. Dhumal

ZES's Zeal College of Engineering
& Research, Narhe, Pune - 41.

Savitribai Phule Pune University, Pune
Second Year Civil Engineering (2019 Course)
201017 Project Based Learning
Credits: 02

Teaching Scheme:
Practical : 04hrs/week

Examination Scheme:
Term Work: 50 Marks

Preamble:

Project Based Learning (PBL) was introduced in curriculum of First Year Engineering in Semester II (Course code- 110013) in 2019 course. In that course, students in group might have planned, managed and completed a task/ project/ activity which addressed the stated problem. In a continuation with this, PBL is introduced in core course of Civil Engineering. PBL demonstrates the power of student projects to develop college, community connections, applied research skills and higher levels of student thinking. PBL is a dynamic approach to teaching in which students explore real-world problems and challenges simultaneously developing 21st century Civil Engineering skills while working in collaborative groups. The aim of this course is to demonstrate the important attributes like communication, presentation, organization, time management, research, inquiry, self-assessment, group participation, leadership and critical thinking. Performance assessed on an individual basis and takes into account the quality of task/project/activity completed, the depth of content understanding demonstrated and the contributions made to the ongoing process of project realization. PBL allows students to reflect upon their own ideas and opinions and make decisions that affect project outcomes and the learning process in general.

Course Objectives:

1. To engage students in constructive learning environment and develop self-learning abilities.
2. To develop critical thinking and solving civil engineering problems by exploring and proposing sustainable solutions.
3. To integrate knowledge and skills from civil and other engineering areas.
4. To develop professional skills and project management.

Course Outcomes:

After completion of course the students will be able to

1. Identify the community/ practical/ societal needs and convert the idea into a product/ process/ service.
2. Analyse and design the physical/ mathematical/ ICT model in order to solve identified problem/project.
3. Create, work in team and applying the solution in practical way to specific problem.

Course Content

- Introduction to Project Based Learning, Traditional vs. Cognitive Learning, Why PBL? , Principles of Problem Design Seven Steps of Problem Design, Online PBL, Applications and Research Trends Case Studies in Civil Engineering.

Group Structure:

- Working in mentor – monitored groups. The students identify, plan, manage and complete a task/ project/ activity which address the stated problem related to civil engineering.
- There should be team/group of maximum four students.
- A supervisor / mentor faculty teacher assigned to individual groups.

Selection of Project/Problem:

At start of course revision of PBL, significance, guidelines and evaluation parameters should be discussed commonly at start of semester. In this session basics PBL, in brief research methodology points relevant to PBL, sample case studies related to civil engineering and brief information about patent, copy right and publications should be given.

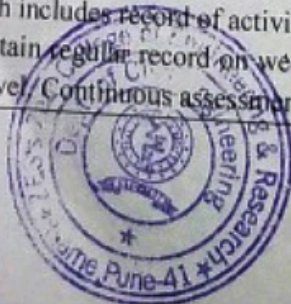

Selection of project/problem related to any technical aspect of civil engineering is recommended or if any project/problem selected in first year engineering related to civil engineering can be continued if enough potential is there. Give preference to select project/problem related to solving any problem/ issue for which suitable model can be developed or software can be used. The project/problem selected could have different alternative solutions which could be theoretical, practical, working model, demonstration or software analysis. The project/problem selected may have multi-disciplinary approach to get the solution. Problem needs to refer back to a particular practical, scientific, or technical domain. It is recommended to include hands-on activities, organizational and field visits, expert consultation to make students aware with current use of technologies. Proper representation of project/problem, course work and report on the results and conclusion is important for assessment of course.

Assessment:

The institution/head/mentor is committed to assessing and evaluating both students' performance and program effectiveness. Progress and review of PBL is monitored regularly on weekly basis. It is recommended to appoint one teaching faculty as a mentor per group/ batch and it will be duty of mentor to perform monitoring and continuous assessment of individual students as well as entire group for their performance. College/ Department is required to provide necessary assistance. It is the responsibility of students to follow guidelines of their group mentor, maintain self-discipline, authentic collaboration, peer learning and personal responsibility, motivation and adopt interactive learning environment. The institution/department should support students in this regard through guidance/orientation programs and the provision of appropriate resources and services. Supervisor/mentor and Students must actively participate in assessment and evaluation processes. Intermittent review and assessment of each group should be done after six weeks from the start of the semester. Each group has to submit their work at end of semester during the end review. Group may demonstrate their knowledge and skills through presentation by developing a model/product/poster and report. Individual assessment for each student (Understanding individual capacity, role and involvement in the project). Group assessment (roles defined, distribution of work, intra-team communication and togetherness).

Evaluation and Continuous Assessment:

Prepare "PBL Log Book" which includes record of activities performed and evaluation carried out with appropriate remarks. Maintain regular record on weekly basis. Records and documents must also be maintained at student level. Continuous assessment sheet must be prepared by each faculty

which consists assessment made on weekly basis also performance made during mid-review and end-review. PBL log book must be maintained as a record even after completion of semester. It will serve as document which will reflect the punctuality, accountability, technical writing ability and project workflow.

Recommended parameters for assessment, evaluation and weightage:

Evaluation criteria and respective percentage weightage for marks.

1. Idea Inception = 5% - 2.5
 2. Solution provided/ final product at end of course = 50% (Individual assessment and team assessment) 25
 3. Documentation in the form of PBL report (typed, hard copy) = 15% - 7.5
 4. Presentation/ Demonstration of model/ PPT/ poster = 10% - 5
 5. Participation/ involvement in group activity = 10% - 5
 6. Publication/ participation on technical platform = 10% - 5
- Course assessment rubrics can be prepared based on the given evaluation parameters for excellent, moderate, acceptable and not acceptable.

	ZEAL EDUCATION SOCIETY'S ZEAL COLLEGE OF ENGINEERING AND RESEARCH NARHE PUNE -41 INDIA		
	Record No.: ZCOER-ACAD/R/25A	Revision: 00	

Department: Civil

Semester: II

Academic Year: 2022-23

Class: SE

Div: NA

Date: 26/04/2023

All students of Second Year Civil Engineering are informed that the Project Based Learning (PBL) Review Phase-II of S.E. Project is scheduled as follows:

Venue	Reporting Time	Date	Group
S. E. Classroom	12:30 PM to 3:30 PM	28/04/23	CE PBL001- CE PBL019

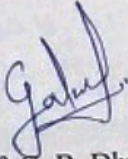

Review stage	Structure	Mode of conduction	Recommended
Phase-II	Problem Identification	PPT	There will be the problem identification to your selected topic.

Objectives:

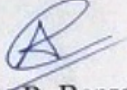

- Identify the community/ practical/ societal needs and convert the idea into a product/ process/ service.
- Analyze and design the physical/ mathematical/ ICT model in order to solve identified problem/project.
- Create & work in team and applying the solution in practical way to specific problem.

Guidelines for selection of project:

- Selection of a project or problem related to any technical aspect related to the allotted domain of civil engineering.
- The project or problem selected may require a multi-disciplinary approach to find a solution.
- The project or problem selected should have different alternative solutions, which could be theoretical, a practical working model or non-working model, a demonstration, or a software analysis.
- The presentation should be in college format.
- The PBL log book is mandatory at the time of Review 2.
