3.6 The Institute hereby grants BTA the permission to facilitate student participation in BTA activities for a duration of minimum of five(5) days within the academic year. This authorization enables BTA to organize multiple events and sessions for the benefit of the students and Institute.

4. Role of BTA:

- 4.1 BTA shall utilize all its strength to collaborate with industries to identify student and university needs and in development of programs. BTA shall accordingly design and deliver various programs within the overall scope of MOU.
 - 4.2 The quality delivery is the responsibility of BTA and BTA would engage the required trainers and the faculty as per the requirement of the program from time to time, in conjunction with the Institute.
 - 4.3 BTA shall design, develop and provide the required program materials and practical training to the aspirant.
 - 4.4 To acquaint an aspirant with Industry and spread the awareness about the opportunities in the Industry, BTA will make all its efforts to bring in Industry experts to conduct Industry awareness talks at the Institute. These events may be conducted through physical visits as also through webex / video conferencing.
 - 4.5 BTA shall promote the program to make them successful. It shall also guide and support the aspirant through necessary Q&A's.
5. The Institute shall treat BTA as a strategic partner for joint activities in regard to the Skill Development for mutual benefits.
 6. To promote the interest of the students BTA will have rights to develop and conduct the programs which could be SPONSORED (as per the program requirements and commercial economics). BTA will discuss with the Institute the commercial implications of such a program before charging a fee to the Institute or the Student to conduct the same. Details of such a program in terms of its overview, objectives, eligibility criteria, pre-requisites, learning outcomes, duration, fees, etc. will be discussed in advance and captured as an annexure to this MOU.
 7. At the end of the program, BTA and Partners may decide to issue a joint certification of completion (as per the program's definition and need) to the students successfully completing the program.
 8. If in a scenario where BTA provides support for Campus placement drive, all the placements and offer/appointment issuance in the companies are subject to the rules and regulations of individual companies participating in the BTA Campus Placement drive. At times the companies issue conditional offer letters to students with a clause stating appointment subject to successful completion of their graduation. The student is expected to complete his/her graduation with clearance in all subjects and provide their result/mark sheet to the company to remain immune to such conditions to retain their placement made with the company.

Through: Head of Department

Subject: Three days Handson workshop on Internet of Things (IoT) for third year students by Department of Computer Engineering in association with IBase Electrosoft LLP, Amravati on 09/10/2023 to 11/10/2023.

Name of the Trainer: Mr. Nakul Deshmukh

• Executive Summary

The Department of Computer Engineering, in association with IBase Electrosoft LLP, Amravati, conducted a three-day "Hands-On Workshop on Internet of Things (IoT)" from October 9, 2023, to October 11, 2023, for third-year students. The workshop, led by Mr. Nakul Deshmukh, aimed to bridge the gap between theoretical knowledge and practical application, develop students' skills, and provide hands-on exposure to IoT concepts and projects.

• Workshop Objectives

The workshop had the following objectives:

1. **Goal Setting:** To help students understand practical concepts, design and develop projects related to their career goals.
2. **Skill Development:** To enhance students' skill sets by providing practical exposure, thereby improving their abilities and knowledge in the field of IoT.
3. **Exposure to IoT:** To expose students to practical aspects of IoT, enabling them to implement IoT projects effectively.

Respected Sir,

We would like to convey our sincere thanks for being here in Department of Computer Engineering, Zeal College of Engineering and Research, Pune for devoting your valuable time and Knowledge by conducting Three days hands on workshop from 09-10-2023 to 11-10-2023 on "Internet of Things".

Your presentation on the topics was very well received by our students. The information delivered in all three days sessions with practical and hardware exposers to students were both fascinating and timely. This workshop was really informative. The workshop will be definitely helpful to our students to improve their theoretical and practical knowledge. We hope same kind of cooperation in near and far future.

Thank you.

DevelopUs.tech

Memorandum of Understanding (MOU) is made on 12th April 2024

By and Between

DevelopUs.tech is a dynamic and rapidly growing web development agency based in Pune, Maharashtra, India. Established by Mr. Rohan Kumar Bhoi on June 16, 2020, the agency has evolved from its humble beginnings as a blog known as "Computer Tips Tricks.tech" into a prominent player in the web development and IT services industry. DevelopUs.tech is committed to delivering high-quality web development solutions, educational services, and more to a global clientele.

DevelopUs is the partner of choice for many of the world's leading enterprises, SMEs and technology challengers. We help businesses elevate their value through custom web development, QA and consultancy services.

We can help to maintain and modernize your IT infrastructure and solve various infrastructure-specific issues a business may face.

And

Zeal Education Society was established in 1996 by Shri. S. M. Katkar, an eminent industrialist committed to the noble cause of education. The society runs twelve institutes from pre-primary to PhD level, catering to the educational needs of students. It is continuously expanding to cope with the growing demands in the field of technical education. Below is a list of technical institutes and management under Zeal Education Society:

1. Zeal College of Engineering and Research

Letter of Understanding (LOU)

Between

REACHA

And

ZEAL COLLEGE OF ENGINEERING AND RESEARCH, PUNE

This Letter of Understanding (LOU) is effective from **1st July, 2023**. It is entered into by and between

REACHA having its Registered Office at 177-178, 2nd Floor, Triveni Apartments, Jhilmil Colony, Delhi India 110095.

(Hereinafter referred to as 1st Party)

And

Zeal College of Engineering and Research, having its Registered Office at **Sr.No 39,Narhe,Pune 411041,Maharashtra**

(Hereinafter referred to as 2nd Party).

Together both may be referred to as "Parties"

Recitals

- I. Whereas, IBM SkillsBuild represented by its country partner for India - REACHA, is a skill building & learning digital platform where users can achieve industry relevant skills, get IBM certified badges & seek employment opportunities for free.
- II. Whereas Zeal College of Engineering is the Institute
- III. Whereas the 1st Party wants to collaborate with specialized agencies/institutions to achieve industry relevant skills required under the IBM SkillsBuild Project.
- IV. Whereas the 2nd Party has shown interest in providing desired skills required by the 1st Party for implementation of the IBM Skills Build Project.
- V. Whereas, at the suggestion of 2nd Party, 1st Party has agreed to collaborate with 2nd Party for availing their expertise for SkillsBuild Project for various activities as listed hereinafter

Therefore, both the parties agree to collaborate for IBM SkillsBuild Project in respect of activities and on terms and conditions given in succeeding para in this Letter of Understanding (LoU). It is reiterated that this LoU is only an expression of interest to collaborate for IBM SkillsBuild Project and neither Party shall have any rights or obligations with respect to each other besides the activities listed below in this LoU.

The IBM Skills Build aims to inculcate the requisite knowledge, experience, and skills amongst the students. As per the UGC Guidelines of December 2022, for Fostering Social Responsibility & Community Engagement in Higher Education Institutions (HEIs) in India, Institutions should prioritize social responsibility and community engagement in their mission and operations (refer to *Annexure A*). It calls for the integration of community engagement into graduation requirements, assessments, and performance evaluations while offering suggestions for different forms of community engagement. The Guidelines further suggest forms of community engagement which may include linking learning with community service, linking research with

community knowledge and knowledge sharing, and knowledge mobilization. Furthermore, as per the Guidelines for performance assessments of teachers, and administrators in HEIs should include the view of their involvement and contributions to community engagement in teaching and research. Criteria of and weightage to community engagement by teachers and researchers should be explicitly included in assessments for recruitment, regularization, and promotion.

One of the major objectives of the SkillsBuild programme offered by IBM and implemented by REACHA is to facilitate colleges in achieving all of the above-desired goals.

Objectives

1. The objective of this LoU is to mutually complement both above parties' energies, outreach, and efforts to curate opportunities of collaboration, sharing of knowledge resources and jointly work on building capacities of the users through the IBM SkillsBuild Platform.
2. Both parties will enable IBM Skills Build for **3500 students** from **Zeal College of Engineering and Research** with prime focus in **State of Maharashtra**. Both Parties will work together to achieve this target.
3. The identified students would be encouraged to take up and complete courses on IBM SkillsBuild by both parties mentioned. 2nd Party must ensure a minimum of 80% attendance and course completion as active learning (8-10 hours of dedicated learning under Project Based Learning Lite Model as defined by IBM SkillsBuild) per month of onboarded learners.

Duration

This LoU is valid from 1st July 2023 up to 31st March 2024.

Operational Aspects

Both parties will work closely with their teams to leverage their student/learner base and other important stakeholders to build industry relevant skillsets & enhance employability prospects of students/learners by providing market-linked skills. 1st Party will facilitate the on-boarding of learners (students) on the platform with assistance and in collaboration with 2nd Party, and encourage students to leverage the platform for better learning opportunities.

2nd Party must ensure a minimum of 80% attendance and course completion as active learning (8-10 hours of dedicated learning under **Project Based Learning (PBL) Lite Model** as defined by IBM SkillsBuild) on IBM SkillsBuild platform per user per month through participation in innovation camps and other learning activities.

2nd Party shall nominate a **Single Point of Contact (SPOC)**/ Volunteer faculty to act as facilitator between students and REACHA Digital Success Manager/team. The SPOC is to be provided with "Letter of Appreciation", from the 1st Party based on their performance during the programme.

2nd Party must provide the necessary infrastructure (**High-Speed Internet Connectivity, projector/ screen, Mic and sound system and classroom/ auditorium**) during the in-person orientation session.

2nd Party shall provide **Student Volunteers** for the coordination and smooth execution of the programme. These Student Volunteers are to be provided with "Letter of Appreciation", from the 1st Party based on their performance during the programme.

INTRODUCTION

This memorandum of understanding (MoU) is entered into on 09.08.2023 between the **B&R Industrial Automation Pvt. Ltd.** herein referred to as **B&R** and **Zeal College of Engineering and Research, Pune** herein after referred to as **ZCOER**.

PREAMBLE

B&R is a world-leading manufacturer of automation equipment. The global Head Quarters of the company is situated in Austria. B&R India head office is in Pune. B&R has a policy to work closely with educational institutions to promote the study of application of automation among students of various disciplines. B&R has ongoing collaborations with institutes in different countries in promoting the study of automation at academic level and in providing a forum for institution – industry interaction. B&R proposes such an interaction with ZCOER.

ZCOER, on their side, being a progressive institution wishing to provide quality value-addition to their students, are equally keen to enter such an interaction with B&R.

Zeal Education Society runs eight institutes from Pre-primary to PhD courses. It caters to educational needs of more than 7000 students, and it's continuously expanding to cope up with growing demands in the field of technical education.

ZCOER is established in 2007 which symbolized the beginning of new era in technical education. The college offers UG engineering degree courses in Civil Engineering, Computer Engineering, and Electrical Engineering, Information Technology, Electronics & Telecommunication, Artificial Intelligence & Machine Learning, Electronics & Computer Engineering and Mechanical Engineering. The college also offers PG courses in Electrical Engineering (Power System), Electronics & Telecommunication (IoT & Sensor Systems), Mechanical Engineering (ME Design / Robotics & Automation) and Master of Business Administration. The institute is also granted as PhD research center in Computer Engineering, Electronics & Telecommunication and Mechanical Engineering under Savitribai Phule Pune University, Pune (SPPU) since 2013.

The college has the experienced and highly qualified staff, spacious classrooms and well equipped laboratories.

With state of the art research, infrastructural, sports, cultural facilities, the campus provides excellent academic ambience for the students, Hence it is one of the sought after engineering colleges in Pune.

Objective

The objective of this alliance is to promote interaction between ZCOER and B&R, in mutually beneficial areas and to maintain a strategic understanding between the two. The primary aim of this alliance is to support ZCOER in providing quality education to their students specifically in the field of automation.

- Prepare students for on latest technologies used in the industry by making them 'Industry Ready Engineers'.
- ZCOER will have an opportunity to work on the latest technology developed by B&R.
- B&R will have the Opportunity to get recognized by academic committees of college as one of the preferred companies for imparting training and skill development in latest technology.
- This alliance will help the faculty of ZCOER to be technically sound and establish Centre of Excellence in the field of Industrial Automation.
- B&R will deliver guest lectures to students at ZCOER, bringing real life experiences.
- Opportunity for the faculty and students to attend conferences and seminars conducted by B&R.

Mutual benefits

- Availability of skilled students having knowledge on latest automation technology.
- B&R Education Network department would like to understand the academic approach of ZCOER and give suggestions to incorporate industrial knowledge and practices.
- Knowledge enhancement of faculty in the field of Automation.
- ZCOER can meet the demand of Industry by providing training to industry professionals.

Roles and responsibilities

B&R:

- Suggest equipment to ZCOER to setup lab-kits as-per mutual agreement.
- Identify and technically support projects and research work, which can be taken up by students and faculty of ZCOER.
- Provide training to the faculty as per regular schedule and give sample applications for their academic requirement.

**ZCOER :**

- Encourage skilled students to participate in recruitment drive offered by B&R.
- Follow B&R guidelines that guarantee protection and confidentiality of B&R data.
- Active participation of students in using B&R software and hardware. Recommended for faculty to incorporate examples/case study provided by B&R in the teaching methodology.
- Maintaining the lab kits and upgrading as per the latest technology.
- College to provide data of all the activities conducted in an academic year related to B&R technology.

Official announcements

- Before using B&R logo for any purposes, a document of consent needs to be signed mutually.
- Department web page of ZCOER , to provide links to B&R website.
- B&R logo should appear prominently on the Web site of ZCOER .
- B&R can use college logo with prior consent from the college.

Steps

- The hardware will be made available to college by B&R in compliance with its policy for Institutions. The software will be developed jointly by B&R and faculty members of ZCOER .
- B&R will offer faculty training at B&R office as per regular schedule.
- Short-term workshops and seminars on innovative technologies to be conducted by B&R experts on invitation from ZCOER to motivate the students in various fields of automation.
- Designated faculty of ZCOER who is responsible for maintenance of lab-kits will be trained by B&R.

Action Points

1. MOU will be signed between B&R and ZCOER .
2. 2 Faculties will be trained by B&R in a 2-week Certified HOTA (Hands-on Training for Automation) on latest automation technology.
3. ZCOER will start the process for acquiring software license and hardware kits. (Software license need to be renewed every year)
4. ZCOER should initiate proposal for the up-gradation and maintenance of hardware and software as per the curriculum requirement of current academic year.

5. Head of the Department of Robotics & Automation Engineering will be put on the mailing list for receiving B&R publications. Others also can be added, on receiving a list from ZCOER. ZCOER shall take responsibility for upgrading and maintaining the list.
6. One point of contact from each side will be designated for the entire process. From B&R side, Mr. Hatim Patrawala Engineer, Business Development – Education Network will be responsible; from ZCOER side Prof. Vivek Bavdhane Assistant Professor (Training and Placement Representative) will be responsible.
7. B&R Industrial Automation will conduct one seminar for students on latest trend in Automation Industry and brief them about the collaboration between B&R Industrial Automation and ZCOER.
8. Faculties, who had attended HOTA training needs to attend revision and update workshop conducted by B&R every year.
9. Training material will be provided by B&R to enhance the knowledge further.
10. 2 Login ID for B&R website will be provided to faculties so as to access the online tutorials available on website.
11. B&R will provide mentorship and technical support to the student for their projects.
12. B&R will try to arrange for Industrial visits for students depending on the availability.
13. ZCOER will provide all necessary data of students attending training on B&R platform.

Disclaimer

It is agreed between the parties that the present MOU is being entered only for the purpose of promoting knowledge on industrial automation among the students and faculty. B&R shall be under no liability to the college or its students or its faculty or anyone associated with the college except for lack of good faith and for obligations expressly assumed by it hereunder. In carrying out the obligations, we both agree to act in good faith and without negligence.

Duration / Term of the MoU

This MoU shall be valid for two (2) year from the date of its entering into and it may be mutually extended from time to time in writing by both institutes.

Changes / Amendment

Additions, deletions and/or alterations to this MoU may be done with the written agreement of both the parties to this MoU.

Hello Everyone!!

Thank You Very Much for registering in this Competition.

We would like to inform you about an important update regarding the Open Automation Challenge that was originally scheduled for next month.

Due to unforeseen challenges and uncertainties that have arisen, we have made the decision to postpone the Open Automation Challenge to June 2024. We understand that this may inconvenience some of you, but we believe it is necessary to ensure the smooth running of the competition and to provide all participants with the best possible experience.

We apologize for any inconvenience this may cause and appreciate your understanding and flexibility. We are committed to providing you with updates and further details as we work to finalize the new dates for the competition.

Rest assured, we are fully committed to making the Open Automation Challenge a rewarding and enriching experience for all participants.

Thank you for your understanding and continued support.

Best Regards,

Permission for One Week Faculty Training Program

Department: AI&DS

Semester: I

Academic Year: 2023 - 2024

Date: 05/12/2023

To,
The Principal
ZCOER, Pune.

Subject: Request for Permission for Faculty Training Program on Artificial Intelligence

Respected Sir,

I hope this letter finds you in good health and high spirits. I am writing to formally request permission on behalf of the Artificial Intelligence and Data Science department to organize a One-Week Faculty Training Program on "Artificial Intelligence" under the program "AI for Youth." This initiative is in association with Intel and Dell, who will be sponsoring the AI Skill Lab for this program.

Details of the proposed training program:

- **Title:** One Week Faculty Training on Artificial Intelligence
 - **Program:** AI for Youth
 - **Duration:** One week (30 hours in total)
 - **Mode of Conduction:** Online
 - **Number of Participants:** 20
 - **Resource Person:** Expert from Intel Bangalore
- Dates - 15 to 19th Jan 2024*

We believe that this training program will significantly contribute to the professional development of our faculty members and enhance their expertise in the rapidly evolving field of Artificial Intelligence. The collaboration with Intel and Dell adds a valuable industry perspective to the training, ensuring that our faculty members stay updated on the latest advancements in AI.

We assure you that all necessary arrangements will be made to ensure a smooth and effective conduction of the program. The online mode of delivery has been chosen for its convenience and accessibility.

ABOUT ZCOER

Zeal Education Society's Zeal College of Engineering and Research (Formally Known as Dnyanganga College of Engineering and Research) is established in June 2007 which symbolized the beginning of new era in technical education. The Institute has been approved by AICTE, DTE, and affiliated to Savitribai Phule Pune University, Pune. The Institute offers undergraduate and postgraduate Engineering degree programme in Information Technology, Computer, Electrical, Mechanical, Civil, Artificial Intelligence & Data Science, Robotics and Automobile Engineering and Electronics & Telecommunication. The institute is also granted as PhD research center in Electronics & Telecommunication and Mechanical Engineering under Savitribai Phule Pune University, since 2013. Well qualified and experienced faculties with good research background are one of the key features of the institute. With state of art research, infrastructural, sports, cultural facilities the campus provides excellent academic ambience for the students. Dedicated Training and Placement Cell of the institute ensures a bright future to its students.

VISION:

To impart value added technological education through pursuit of academic excellence, research and entrepreneurial attitude.

MISSION:

- To achieve academic excellence through innovative teaching and learning process.
- To imbibe the research culture for addressing industry and societal needs.
- To provide conducive environment for building the entrepreneurial skills.
- To produce competent and socially responsible professionals with core human values.

ABOUT AI & DS DEPARTMENT

Zeal College of Engineering and Research, Pune has started a course in emerging area "Artificial Intelligence and Data Science" from the academic year 2020-21 at UG level FE admission seekers. This course will certify students with in demand big data technologies. It also empowers students with data management technologies like Hadoop, Ecosystem, R, Programming Machine learning etc. The knowledge and expertise of the skills in this course would be an added advantage for a better and competitive career for all the aspiring students. This course offers combination of Data Science and Artificial Intelligence, which includes knowledge of machine learning and deep learning algorithms. This course will also offer students with liberty to make every machine to perceive it's environment that you work on.

VISION:

To promote quality education with strong foundation of Artificial Intelligence and Data Science Engineering that enables self-development, entrepreneurship and Intellectual property to become a successful IT Professional.

MISSION:

- To empower students for developing intelligent systems and innovative products through academic excellence
- To produce competent computer professionals to serve the needs of the society by preserving human core values
- To provide research culture and conducive environment for entrepreneurship and to solve industry needs.

ABOUT COMPUTER ENGINEERING DEPARTMENT:

The Computer Engineering Department aims creating change makers in the technology sector who would shake-up the industry and academia with their path breaking innovations and knowledge. The thrust the College places on constantly upgrading oneself would ensure the professional success and growth of our graduates. Zeal Education Society takes keen interest in developing our students' ability to analyze, synthesize, and design both core components of modern computing systems and integrated application systems centered on computers. Our skilled and experienced faculty imparts knowledge about the scientific substructure for hardware and software engineering to the students who further apply it in engineering exercises.

VISION:

To emerge as a department of repute in Computer Engineering which produces competent professionals and entrepreneurs to lead technical and betterment of mankind.

MISSION:

- M1: To strengthen the theoretical and practical aspects of the learning process using modern tools and FOSS technologies.

Report on Faculty Development Program on "AI for Youth"

Department of Artificial Intelligence and Data Science organized a One-Week Faculty training program focused on "Artificial Intelligence" under the program "AI for Youth". This initiative is in association with **Intel & Dell**, who will be sponsoring the AI Skill Lab for this Program. The objective of the program was to orient the faculty members towards the New AI Trends. The FDP is from **15th Jan 2024 to 19th Jan 2024** in **Online** mode for the duration of One Week (30 Hours in Total) which is conducted by the Resource person/Expert from INTEL, Bangalore.

The resource person from INTEL, Bangalore is focused on Artificial Intelligence.

At the end of function vote of thanks was given by Prof. D. D. Sarpate

Participants interacted with the experts during the session.

The certificates were distributed to the participants after online Test. A concluding session followed after vote of thanks in which participants shared their experiences. Total Registration for FDP is 38 and total participants attended are 35 and in this way the Faculty Development Program was successfully conducted.

Standard Mutual Non-Disclosure Agreement

NDA #100220483

In order to protect certain Confidential Information (as defined below), this Non-Disclosure Agreement ("Agreement") is made by Dell International Services India Pvt. Ltd. for itself, its wholly-owned or wholly controlled subsidiaries and affiliates, (collectively "Dell"), and Zeal College of Engineering and Research for itself and its subsidiaries and affiliates (collectively "Participant"). The Party disclosing Confidential Information hereunder is referred to as "Discloser" and the Party receiving Confidential Information hereunder is referred to as "Recipient".

1. **Effective Date.** The effective date of this Agreement is 01.03.2024 (MM.DD.YYYY).
2. **Mutual Agreement.** This Agreement will apply to all Confidential Information disclosed between Discloser and Recipient.
3. **Confidential Information.** "Confidential Information" disclosed under this Agreement is defined as any information, technical data or know how furnished, whether in written, oral, electronic, website-based, or other form by the Discloser to the Recipient that (a) is marked, accompanied or supported by documents clearly and conspicuously designating such documents as "confidential", "internal use" or the equivalent; (b) is identified by the Discloser as confidential before, during or promptly after the presentation or communication; or (c) should reasonably be known by Recipient to be confidential.
4. **No Use of Name.** Each Party agrees not to issue or release any articles, advertising, publicity or other material relating to any other Party's Confidential Information or mentioning or implying the name of any other Party without the prior written consent of such other Party.
5. **Term and Termination.** This Agreement shall remain in effect until it is terminated by a Party with thirty (30) days prior written notice; provided, however, that no Party shall terminate this Agreement if the Parties have a direct agreement still in effect. Subject to Section 7 below, the terms and conditions of this Agreement shall survive any such termination with respect to Confidential Information that is disclosed prior to the effective date of termination.
6. **Permitted Use and Disclosure.** Recipient will use Confidential Information only for the purpose of and in connection with the evaluation of a potential, or continuation of a business transaction or relationship between the Parties. Recipient may disclose Confidential Information to any of its related organisations that are identified above in this Agreement, and to its directors, officers, employees, contractors, advisors, and agents, so long as such organisations and/or individuals have a need to know in their work for Recipient in furtherance of the potential or continued business transaction or relationship, and are bound by obligations of confidentiality at least as restrictive as those imposed on Recipient in this Agreement (collectively, "Representatives"). Recipient is fully liable for any breach of this Agreement by its Representatives. Recipient will use the same degree of care, but no less than a reasonable degree of care, as the Recipient uses with respect to its own similar information to protect the Confidential Information. Recipient may only disclose Confidential Information as authorised by this Agreement. Notwithstanding anything herein to the contrary, the restrictions on disclosure and use set forth in this Agreement do not restrict the right of Recipient to independently design, develop, acquire, market, service or otherwise deal in, directly or indirectly, products or services competitive with those of the Discloser; provided that the Recipient does not use any of the Discloser's Confidential Information for such activities. Further, Recipient retains sole discretion to assign or reassign the job responsibilities of its employees.
7. **Protection Period and Return of Information.** Unless the Parties otherwise agree in writing, a Recipient's duty to protect Confidential Information expires 3 years from the date of disclosure. Notwithstanding anything to the contrary herein and subject to Section 8, protection of technical information about a Discloser's current products and services and all information about possible unreleased products or services shall never expire. Upon the Discloser's written request, Recipient will promptly return or destroy all Confidential Information received from the Discloser, together with all copies. Notwithstanding the foregoing, Recipient's professional advisors (e.g., lawyers and accountants) may retain in confidence one file copy of their respective work papers and final reports in accordance with their professional and ethical obligations.
8. **Exclusions.** This Agreement imposes no obligation upon a Recipient with respect to Confidential Information which (a) the Recipient can demonstrate was already in its possession before receipt from the Discloser; (b) is or becomes publicly available through no fault of the Recipient or its Representatives; (c) is rightfully received by the Recipient from a third party who has no duty of confidentiality; (d) is disclosed by the Discloser to a third party without a duty of confidentiality on the third party; (e) is independently developed by the Recipient without a breach of this Agreement or (f) is disclosed with prior written consent of Discloser. If a Recipient is required by a government body or court of law to disclose Confidential Information, to the extent permitted by law, the Recipient agrees to give the Discloser reasonable advance notice so that the Discloser may contest the disclosure or seek a protective order.
9. **WARRANTY & DISCLAIMERS.** DISCLOSER WARRANTS THAT IT HAS THE RIGHT TO DISCLOSE ITS CONFIDENTIAL INFORMATION. NO OTHER WARRANTIES ARE MADE UNDER THIS AGREEMENT, WHETHER EXPRESS, IMPLIED, OR STATUTORY, INCLUDING WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT. DISCLOSER HAS NO RESPONSIBILITY OR LIABILITY UNDER THIS AGREEMENT AS TO THE ACCURACY OR COMPLETENESS OF THE CONFIDENTIAL INFORMATION. EXCEPT AS OTHERWISE PROVIDED HEREIN, ALL CONFIDENTIAL INFORMATION IS PROVIDED "AS IS".
10. **No Obligation.** This Agreement is intended to provide only for the use, handling and protection of Confidential Information. It does not create a joint venture, partnership or other similar arrangement or relationship. This Agreement imposes no obligation on any Party to exchange Confidential Information, to purchase, sell, license, transfer, or otherwise make use of any technology, services or products, or to enter into or negotiate toward, any transaction, relationship or other agreement with any Party.
11. **Export Compliance.** Confidential Information received pursuant to this Agreement may not be exported from the location in which it is received. If Recipient wants to export the Confidential Information, Recipient must request and receive Discloser's written permission. If Discloser gives Recipient permission to export the Confidential Information, Recipient agrees to comply with the applicable Indian Laws.
12. **Application for Credit.** Solely in the event that Participant requests an extension of credit from Dell, Participant represents and warrants that any Confidential Information it provides to Dell in connection with an extension of credit ("Credit Information") is true, correct, and complete in all material respects. Dell may provide Credit Information and related information in Dell's possession to potential funding sources and their agents, advisors and

consultants who are bound by obligations of confidentiality at least as restrictive as those imposed by this Agreement. Notwithstanding anything in this Agreement to the contrary, Dell may keep Credit Information in accordance with applicable document retention requirements and the confidentiality obligations imposed by this Agreement.

13. Ownership. All Confidential Information disclosed hereunder will remain property of the Discloser. No Party grants to the other any rights under any patent, copyright, trade secret, trademark or any other intellectual property right except the limited rights set forth in Section 6 above.
14. Remedies. The obligations and duties imposed by this Agreement with respect to any Confidential Information may be enforced by Discloser against any and all Recipients. Each Party acknowledges that damages for improper disclosure of Confidential Information may be irreparable; therefore, the injured Party may be entitled to seek equitable relief, including injunction and preliminary injunction, in addition to all other remedies available at law or in equity.
15. GOVERNING LAW. THIS AGREEMENT IS MADE UNDER, AND WILL BE CONSTRUED ACCORDING TO, THE LAWS OF INDIA AND IN CASE OF ANY DISPUTE THE PARTIES SHALL SUBMIT TO THE EXCLUSIVE JURISDICTION OF COURTS OF BENGALURU.
16. Severability; Waiver. If any provision of this Agreement is found to be invalid or unenforceable in whole or in part, the Parties agree the remaining provisions of this Agreement shall remain valid and enforceable to the maximum extent compatible with existing law. Discloser's failure to enforce Recipient's performance of any term herein will not constitute a waiver of Discloser's right to subsequently enforce such term or any other term of this Agreement.
17. Miscellaneous. This Agreement is binding upon the Parties and upon their respective successors. All additions or modifications to this Agreement must be made in writing and must be signed by the Parties. This Agreement may be signed in separate counterparts. Electronic or facsimile signatures will have the same legal effect as original signatures and may be used as evidence of execution.

Orion Instruments

Memorandum of Understanding (MOU) is made on this 21st March 2024

By and Between

Orion Instruments Established in 1977, engaged in Manufacturer, Wholesaler and Exporter of Compact Switches, Pressure Switches, Flameproof Pressure Switches, Process Switches, etc. Since the emphasis was on learning the total concept of pressure switching, the design of the switches & all the testing facilities were manufactured in house. This provided a complete insight into the working of pressure switches & simultaneously ingrained a culture of continuous improvisation of products in the company personnel. Rigorous quality checks & testing methods led to an inbuilt reliability in every pressure switch that left the factory premises. The result was a growing number of clients & a growing market with cross references. Today, between both the sister concerns, numerous pressure switches are silently working on the field at various sites & on various applications. This trouble free service has given us repeat orders from many a reputed client.

Memorandum of Understanding (MOU) is made on this 26th March 20 24

By and Between

Back in 2007, Ashirwad started as a Fabricator to supply Solar water heater parts. Soon in 2010, we became Ashirwad Solar with a small factory unit producing Solar water heaters. Our quest for continuous development and endeavour to generate a better future we are now expanded to more than 15 products in Solar and green energy generation.

While we were busy in continuous research and development for best quality products in the sector our beloved partners and dealer network has served 1000 of clients. They are true partners in the success of Ashirwad. World-class products and Best in class service have satisfactory feedback from customers.

We are now dealing internationally by importing ETC tubes from European countries and south-east Asia. We are proud to supply these tubes all over India. Our research has always supported our dream of a better future by enabling us to provide more artistic yet optimum performance products over the years. We are committed to our quest of generating a better future and our channel partners, our dealers and imploringly our customers are all part of this commitment. We are thankful for their belief and support over the period. By and Between

Worth Engineering Established in the year 1987, we Worth Engineering are led by Mr. A.V. Kulkarni. His extensive industry experience and business sense has enabled us to manufacture superior quality industrial carbide tools and oerlikon blades. Under his able guidance we have established latest engineering techniques to obtain optimum quality products, with divers use. Our range of products include knovoid blades, two tool generator blades, carbide ball pcd pins, oerlikon blades, cutter body bolts, paralels (spaces) and hob arbours. We are also engaged in the manufacturing of HSS single point tools used for bevel gear generating. Our oerlikon blades are ideal for generating bevel gears & pinions. With enhanced production we have attained the membership of SSI and also ISO 9001 : 2000 certification for our products. This ensures that we deliver precision engineered products to our clients. Achieving this, we aim at satisfying our clients with efficient services and durable products.

3.6 The Institute hereby grants BTA the permission to facilitate student participation in BTA activities for a duration of minimum of five(5) days within the academic year. This authorization enables BTA to organize multiple events and sessions for the benefit of the students and Institute.

4. Role of BTA:

- 4.1 BTA shall utilize all its strength to collaborate with industries to identify student and university needs and in development of programs. BTA shall accordingly design and deliver various programs within the overall scope of MOU.
 - 4.2 The quality delivery is the responsibility of BTA and BTA would engage the required trainers and the faculty as per the requirement of the program from time to time, in conjunction with the Institute.
 - 4.3 BTA shall design, develop and provide the required program materials and practical training to the aspirant.
 - 4.4 To acquaint an aspirant with Industry and spread the awareness about the opportunities in the Industry, BTA will make all its efforts to bring in Industry experts to conduct Industry awareness talks at the Institute. These events may be conducted through physical visits as also through webex / video conferencing.
 - 4.5 BTA shall promote the program to make them successful. It shall also guide and support the aspirant through necessary Q&A's.
5. The Institute shall treat BTA as a strategic partner for joint activities in regard to the Skill Development for mutual benefits.
 6. To promote the interest of the students BTA will have rights to develop and conduct the programs which could be SPONSORED (as per the program requirements and commercial economics). BTA will discuss with the Institute the commercial implications of such a program before charging a fee to the Institute or the Student to conduct the same. Details of such a program in terms of its overview, objectives, eligibility criteria, pre-requisites, learning outcomes, duration, fees, etc. will be discussed in advance and captured as an annexure to this MOU.
 7. At the end of the program, BTA and Partners may decide to issue a joint certification of completion (as per the program's definition and need) to the students successfully completing the program.
 8. If in a scenario where BTA provides support for Campus placement drive, all the placements and offer/appointment issuance in the companies are subject to the rules and regulations of individual companies participating in the BTA Campus Placement drive. At times the companies issue conditional offer letters to students with a clause stating appointment subject to successful completion of their graduation. The student is expected to complete his/her graduation with clearance in all subjects and provide their result/mark sheet to the company to remain immune to such conditions to retain their placement made with the company.

TRIPLAN - Passion for Engineering

For more than five decades TRIPLAN has been developing and optimizing complex process engineering facilities as an independent general engineering service provider. Today, TRIPLAN is one of the top engineering service providers in Europe for new construction, conversion, modernization and optimization of existing plants.

The range of services covers the following areas:

Chemical

Refinery

Petrochemical

Life Science

Our offer covers the entire value chain from production-related engineering to the handling of our customers' major investment projects. This leads to a sustainable improvement in the market and competitive position.

The parent company TTP GmbH has united the TRIPLAN as well as PHARMAPLAN companies under one roof since 2019. This has created one of the leading medium-sized engineering companies for the process industry in Europe.

Around 1000 employees work at 26 locations work within TTP Group in Austria, Belgium, France, Germany, Switzerland and India. PHARMAPLAN is a sought-after engineering partner to the European pharmaceutical industry and covers the entire range of engineering services - from feasibility and concept studies to the implementation of investment projects (EPCMV) and on-site operational engineering support. Under the operational brand TRIPLAN, TTP offers engineering services for plant construction primarily in the chemical industry.

TTP Group has created a central administration with clear responsibilities for its core markets and ensures a high degree of operational ownership by the regional organisations. This means that
