Subject: Submission of the report of Expert Lecture **Intellectual Property Rights & Patents** for the SE & TE Students of Computer Engineering.

Respected Sir,

With the above reference, we have successfully organized Guest Lecture on **Intellectual Property Rights & Patents** for our students of SE & TE on **02nd April 2024**. The guest lecture on Intellectual Property Rights (IPR) and Patents was conducted to provide insights into the historical evolution of patents, types of intellectual property, patents law and regulations, the scope of patentability, stages from filing to grant of patents, conditions of patentability, trademarks and registration, and the scope of copyright and its registration.

Name of Expert: Dr. Rahulkumar S. Hingole

No. of Participants: 178

Location: CSMA D-Building

Faculty Coordinator: Prof. Ashwini S. Pijdurkar

Contents Covered:

1. History of Patents:

- The lecture commenced with a historical overview of patents, tracing their origins back to ancient civilizations where systems for protecting inventions existed.

NARHE | PUNE -41 | INDIA**

Record No.: ZCOER-ACAD/R/

Revision: 00

Date: 01/04/2021

- Emphasis was placed on the evolution of patent systems in various countries, notably the Statute of Monopolies in England in 1624 and the U.S. Patent Act of 1790.

2. Types of Property:

- The lecture elucidated on different types of intellectual property, including patents, trademarks, copyrights, and trade secrets.
- Each type was explained along with its unique features and protection mechanisms.

3. Patents Law and Regulations:

- Detailed discussion on patent laws and regulations was undertaken, focusing on the legal framework governing patents in the respective jurisdictions.
- Various international agreements and treaties governing patents were also highlighted.

4. Scope of Patentability under the Patents Act:

- The lecture elaborated on the criteria for patentability under the Patents Act, emphasizing novelty, inventive step, and industrial applicability.
- Examples of patentable subject matter and non-patentable subject matter were provided to illustrate the scope.

5. Stages from Filing to Grant of Patents:

- Attendees were guided through the stages involved in obtaining a patent, from the initial filing of the patent application to its eventual grant.
- Key milestones and procedural requirements at each stage were outlined.

6. Patentability & Conditions of Patentability:

- Detailed explanation was provided regarding the conditions of patentability, including novelty, inventive step, and industrial applicability.
- Attendees were made aware of the importance of meeting these conditions for a successful patent application.

7. Trademarks & Registration:

- The lecture shifted focus to trademarks, discussing their significance in branding and distinguishing goods and services in the marketplace.
- Attendees gained insights into the trademark registration process and the rights conferred upon registration.

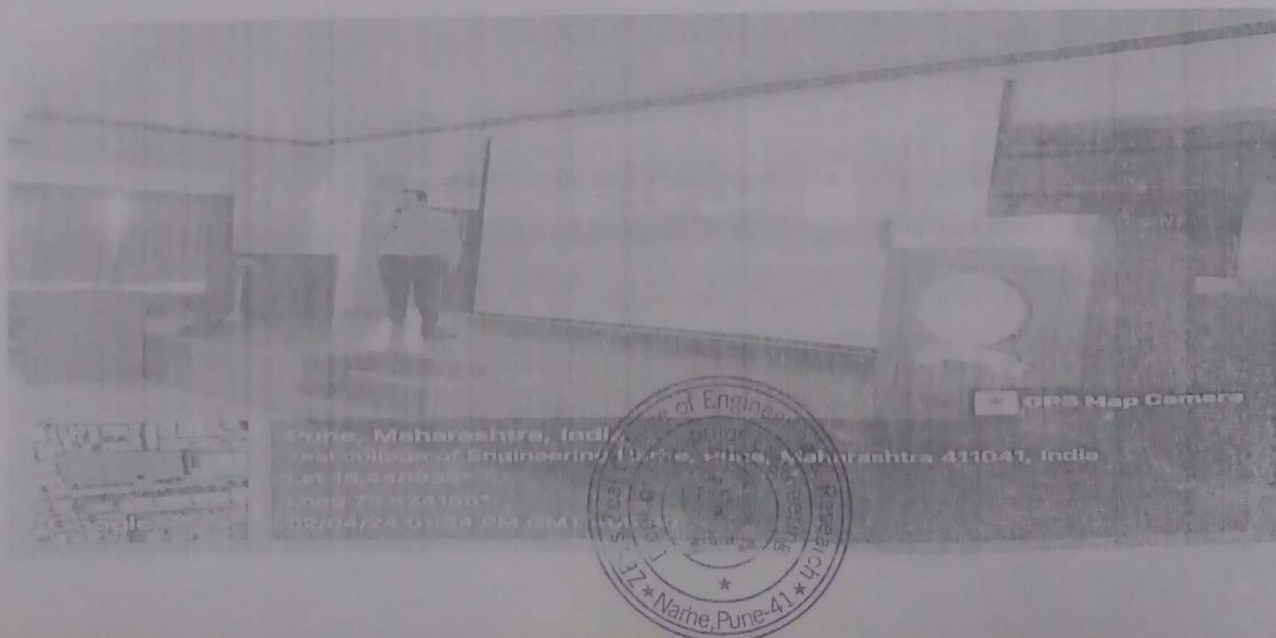

8. Scope of Copyright & Its Registration:

- The lecture concluded with a discussion on copyrights, emphasizing the protection of literary, artistic, and creative works.
- Attendees were briefed on the scope of copyright protection and the benefits of copyright registration.

Conclusion:

The guest lecture provided a comprehensive understanding of Intellectual Property Rights (IPR) and Patents, covering the historical evolution of patents, types of intellectual property, patents law and regulations, scope of patentability, stages from filing to grant of patents, conditions of patentability, trademarks and registration, and copyright and its registration. Attendees gained valuable insights into the legal framework governing intellectual property and the significance of protecting intellectual creations in today's knowledge-driven economy.

Subject: Invitation for conducting Guest Lecture on "From Code to Deployment: A Workshop on software engineering Practices" for all SE students on 15th March 2024.

Dear Sir,

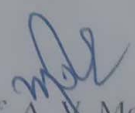

We are pleased to inform you that we are organizing a guest Lecture on "**From Code to Deployment: A Workshop on software engineering Practices**", for all second year computer engineering students on **15th March 2024**. It is an honor and privilege to invite you to conduct a guest lecture. We believe that your guidance and subject knowledge will be helpful to our students. So, I request you to give us an opportunity to listen about the regarding topic.

Please feel free to call, if you require any further information. Looking forward to your positive response.

Thank You.

Yours Sincerely,

Subject: Submission of the report of Expert Lecture **Code of Conduct and Ethics** for the SE Students of Computer Engineering.

Respected Sir,

With the above reference, we have successfully organized Expert Lecture on **Code of Conduct and Ethics** for our students of SE on **29th February 2024**. The expert lecture delved into the intricacies of human perception, ethics, and conflict resolution, providing valuable insights into understanding these complex topics and their implications in various aspects of life.

Industry Expert: Prof. Karthick Subramanian

No. of Participants: 120

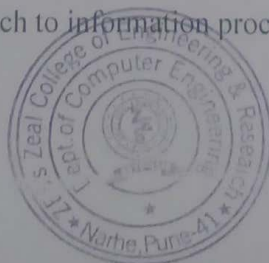

Location: CSMA D-Building

Faculty Coordinator: Prof. Ashwini S. Pijdurkar

Contents Covered:

1. Understanding Human Perception:

The lecture commenced with an exploration of the limitations of human perception. The presenter emphasized how our senses can often be deceived, leading to inaccuracies in our understanding of the world around us. Examples were provided to illustrate how factors such as bias, selective attention, and cognitive heuristics can distort our perception of reality. By acknowledging these limitations, individuals can adopt a more critical approach to information processing and decision-making.

2. Ethics: Personal, Interpersonal, and Leadership:

A significant portion of the lecture was dedicated to ethical considerations in personal, interpersonal, and leadership contexts. The presenter underscored the importance of ethical behavior in maintaining trust, fostering healthy relationships, and upholding moral principles. Various ethical dilemmas were discussed, highlighting the complexities involved in navigating ethical challenges. Strategies for cultivating ethical awareness and integrity were also shared, emphasizing the role of self-reflection, empathy, and ethical leadership in promoting ethical conduct.

3. Legality vs. Ethics:

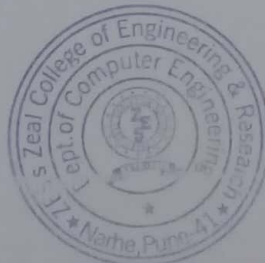

The distinction between legality and ethics was a focal point of the lecture. While legal standards provide a framework for acceptable behavior within a society, ethics encompass broader moral principles that may transcend legal boundaries. Through thought-provoking scenarios and case studies, the presenter encouraged participants to critically evaluate the ethical dimensions of their actions and decisions, even when they comply with legal requirements. The discussion underscored the importance of ethical decision-making in promoting justice, fairness, and societal well-being.

4. Overcoming Limitations in Human Behavior:

Addressing the limitations of human behavior, the lecture offered strategies for overcoming or minimizing these constraints. Participants were encouraged to cultivate self-awareness, develop emotional intelligence, and engage in continuous learning and self-improvement. By recognizing and addressing their inherent biases, cognitive limitations, and behavioral tendencies, individuals can enhance their decision-making abilities and adapt more effectively to diverse situations.

5. Handling Conflicts:

The lecture concluded with a comprehensive exploration of conflict resolution strategies. Participants learned about various approaches to managing conflicts, including negotiation, mediation, and collaborative problem-solving. Emphasis was placed on active listening, empathy, and constructive communication as key skills for resolving conflicts in interpersonal and organizational settings. Practical tips and techniques were provided to help participants navigate conflicts effectively and promote positive outcomes.

Conclusion:

In summary, the expert lecture provided valuable insights into understanding human perception, ethics, and conflict resolution. Participants gained a deeper understanding of their own cognitive limitations, ethical responsibilities, and effective strategies for managing conflicts. By applying the knowledge and skills acquired, individuals can strive towards more ethical decision-making, healthier relationships, and constructive conflict resolution in both personal and professional contexts.
