HOD Nomination – TOP 3

It is our endeavour to motivate the budding engineers for pursuing higher studies and reaching their career goals by entering the corporate world or research world with excellent value proposition and strong positioning in their respective roles. We request HOD's of eminent Engineering colleges to nominate their class toppers for GATE training at T.H.E. GATE ACADEMY at subsidised cost.

Scholarship Scheme table: -

<u>Sl. No.</u>	<u>Rank in the Classroom*</u>	<u>%age of Scholarship</u>
1.	Rank 1	100%
2.	Rank 2	75%
3.	Rank 3	50%

*Terms and Conditions: -

- 1) Only 4th Semester students are eligible.
- 2) Marks in 3rd semester results must be considered for declaring ranks in the classroom.
- 3) If class toppers are not interested in GATE or GATE training with T.H.E. GATE ACADEMY, then this scholarship is cancelled for that classroom.
- 4) This Scholarship is not transferable to any other candidate in any circumstances.
- 5) Self-attested marks cards of the students is mandatory to submit.

Looking forward to an enriching academic association with your esteemed institution.

With warm regards,

Academic team,
T.H.E. GATE ACADEMY.

HOD DECLARATION

Following students should be nominated for GATE training at T.H.E. GATE ACADEMY as per the terms and condition of this scheme. Class rankers are based on their 3rd Semester results.

The information given below is true as per my best knowledge and judgement: -

Rank – 1	Name of the Student	PARADKAR SUYASH YOGESH

Guest Lecture on
**“Career Success In
 Cloud Technology”**

Department: Information Technology
Semester: I
Name of Guests: Prof. Ankita Patil

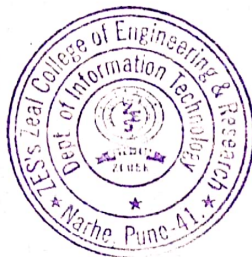

Academic Year: 2021-22
Date: 17/09/2021
Timing: 10 AM

The Department Information Technology organized a guest lecture on “Career Success in Cloud Technology” lead by Prof. A.M.Patil, of IT department ZCOER .Prof. A.M.Patil is specialized in Cloud Technology(AWS).

In this interactive session the students were given a brief description of the following:

- Ø Introduction
- Ø Need of Cloud Computing.
- Ø Different types of Cloud Computing.
- Ø Roles of Cloud Computing.

The students were provided the information on cloud computing where he told the students about the growing need of computers in our day to day life so the computing resources that we need also go up. For companies like Google and Microsoft, harnessing the resources as and when they need it is not a problem. But when it comes to smaller enterprises, affordability becomes a huge factor. With the huge infrastructure come problems like machines failure, hard drive crashes, software bugs, etc. This might be a big headache for such a community. Cloud Computing offers a solution to this situation.

She explained what the cloud computing exactly mean in real life. A cloud is a virtualized server pool which can provide the different computing resources of their clients. Users of this system need only be concerned with the computing service being asked for. The underlying details of how it is achieved are hidden from the user. The data and the services provided reside in massively scalable data centers and can be ubiquitously accessed from any connected device all over the world.

She further discussed different types of cloud computing. Also he motivated students that cloud computing enables innovation by alleviating the need of innovators to find resources to develop, test, and make their innovations available to the user community. Innovators are free to focus on the innovation rather than the logistics of finding and managing resources that enable the innovation.

At the conclusion of the session the query round was held in which the students got an opportunity to put forward questions to satisfy their curiosity. The overall session was enlightening and the students enjoyed it.

Cloud Hiring Based On Experience Doesn't Help, Changes Are Too Rapid

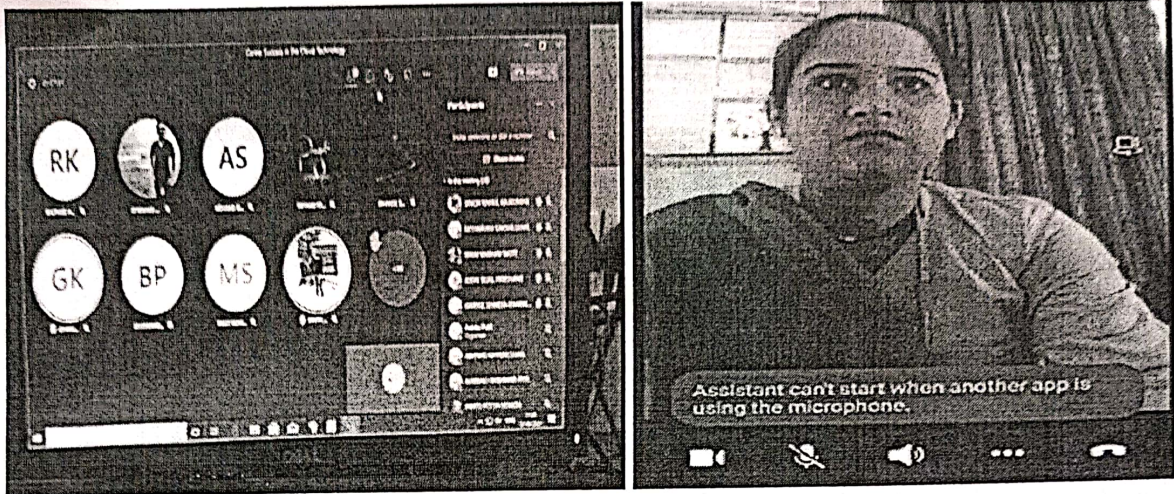

The infographic shows a flow from 'Cloud Computing' to 'Cloud Services' and 'Cloud Applications'. It also includes a bar chart showing the growth of cloud computing in India from 2015 to 2022, with a projected 30% annual growth rate. Key statistics include: 'Cloud computing market in India is growing at an annual rate of 30%', 'Present \$2.2bn market will be \$4bn by 2020', and '48.5% of cloud jobs in India available in Bengaluru. This is followed by Pune and Hyderabad'. It also lists 'Top hiring companies include Microsoft, Wipro, HCL, IBM, Tech Mahindra' and 'Median salary is ₹18 lakh across all experience levels as well as skill sets'. A starting level salary of ₹6 lakh for mid-level managers with 10-15 years experience is also mentioned, along with Oracle's high-paying professionals (up to ₹1 crore).

CLOUD COMPUTING IN INDIA
